

EQUITY PLANT IN COURT'S HANDS

NEW EFFORT FOR COAL PEACE IS BEING MADE

PINCHOT ACTS FOR PARLEY IN WAGE DISPUTE

Governor of Pennsylvania Is Named by Coolidge to Attempt Compromise

OPTIMISM IS FELT

Many Officials in Washington Hope for Prevention of Strike on September 1

Harrisburg, Pa., Aug. 25.—Invitations to meet him in Harrisburg next Monday noon were sent by Governor Gifford Pinchot today to the four representatives of the anthracite miners and the four members of the operators' policy commission who took part in the recent negotiations as the first step in efforts to adjust differences between the two factions and avert a suspension of mining September 1.

SPECIAL MEDIATOR

Harrisburg, Pa., Aug. 25.—Governor Pinchot today was completing plans by which he hoped to avert a suspension of anthracite mining operations September 1. Appointed by President Coolidge as a special mediator of the coal controversy he was prepared to invite the representatives who failed to agree at Atlantic City to meet him here.

The first active step was planned, for today when invitations were sent to representatives of miners and operators.

Governor Pinchot in a statement upon his return from Washington said that President Coolidge had asked him to take hold of the anthracite situation and do what he could to find a solution.

OFFICIALS OPTIMISTIC

(By the Associated Press.) Washington, Aug. 25.—With machinery for the emergency distribution of the fuel supply in final shape, the government today awaited the outcome of the effort of Governor Pinchot of Pennsylvania to find a compromise which would lead to a settlement of the threatened anthracite strike.

The designation of Mr. Pinchot as mediator which followed his conference here yesterday with President Coolidge and Chairman Hammond had perceptibly strengthened the feeling of optimism which has marked official opinion since the situation became acute.

WILL ACCEPT

Atlantic City, Aug. 25.—Representatives of the mine operators and officials of the miners' union will accept Governor Pinchot's invitation for a conference at Harrisburg Monday of the threatened anthracite suspension. Members of both groups who still are in Atlantic City said the invitation would be accepted as soon as received.

READY FOR STRIKE

Atlantic City, Aug. 25.—Anthracite miners' representatives took the last step necessary to shut down the mines September 1.

Philip Murray, vice president of the United Mine Workers, and Thomas Kennedy, C. J. Golden and Rinaldo Cappellini, presidents of the anthracite districts, met with the union scale committees and reported on the fruitless negotiations. There were 18 "miners from the pit" as prescribed by union labor delegates for their fellow workers on hand to listen. John L. Lewis, president of the union, was confined to his bed all day by a slight cold. At the end of three hours of executive session the miners, most of them of mature years, trooped silently away.

Writing Strike Rules

"We are writing a set of rules which will govern the suspension of work on the part of our members that automatically comes about September 1," Mr. Murray said. "It will be printed and mailed out Tuesday from some point in the anthracite region in order to reach all of our locals by August 31."

"For the first time, the rules will also call for all of our members who are employed as firemen, pumpmen, engineers and maintenance men to cease work when the miners go out. These men have hitherto been left in service in order to keep the mines from flooding and caving in. The scale committee, however, authorizes the international district officials to complete any satisfactory arrangement with the operators, if the operators desire to continue the employment of our members in such capacity, which will have that result."

The mention of the continuance in service of enough anthracite workers to prevent the incalculable damage that would result to the mines from flooding and cave-in covered a point to which observers attached great importance and about which operators and the union appeared to be staging an entirely new controversy.

EARLY TO BED, EARLY TO RISE

You can believe those stories about President Coolidge's early rising after seeing this picture. With a secret service man on either side, he returns to the White House after a brisk walk through the capital's business district. Notice the clock—6:45 a. m.

REJECT BIDS ON SCORIA

County commissioners of Stark county, in session at Dickinson, rejected bids for use of scoria, the red bricklike material found in abundance in western North Dakota, for use instead of gravel in surfacing seven miles of federal aid road north and south of Dickinson, according to A. D. McKinnon, state highway commission engineer. Bids were rejected because the distance necessary to haul the scoria made the cost probably \$8,000 more than gravel, found nearby, he said. New bids on gravel surfacing will be asked.

PROPERTY IS VALUED

State Board Assesses Express Company, Pullman Company, Etc.

Valuation of the express, Pullman car, telegraph and street railway company property in North Dakota for taxation purposes for 1923, as fixed by the state board of equalization, is \$2,892,672 as compared to \$2,835,003 last year. The valuation of these properties follows:

American Railway Express, 1922, \$892,405; 1923, \$892,405; Pullman Car Company, 1922, \$242,469; 1923, \$237,490; telegraph companies, 1922, \$1,306,257; 1923, \$1,306,257; street railway companies, 1922, \$398,872; 1923, \$350,448.

Valuation of the street railway companies follows: Fargo-Moorhead company, 1922, \$251,757; 1923, \$216,488; Grand Forks, 1922, \$76,440; 1923, \$76,440; Valley City Interurban Co., 1922, \$54,900; 1923, \$54,900; Wahpeton-Breckenridge St. Ry. Co., 1922, \$175; 1923, \$6,890.

TWO KILLED IN BAD FLOOD

El Paso, Tex., Aug. 25.—Two persons were killed, seven severely injured and a score slightly hurt in flood which did \$200,000 damage to adobe homes in the lowlands of Juarez, across the Rio Grande from here last night.

GEN. MARCH IS MARRIED

London, Aug. 25.—Major-General Peyton C. March, former chief of staff of the American Army and Miss Cora Virginia McEntee of New York City were married today at the registry office in Buckingham Palace Road.

VISITOR HERE SEES BUSINESS GOOD ON SLOPE

James Milloy, of Minot, A. of

C., Reports Discussions With Business Men

GOOD IN NORTHWEST

Business interests in western North Dakota generally are well satisfied with conditions, James Milloy, secretary of the Minot Association of Commerce, said in Bismarck today.

There is, however, he added, too much "calamity howling" in the eastern part of the state, which injures the entire state.

Mr. Milloy was in Bismarck today, returning from Dickinson on business. He said he talked with two business men in Dickinson and Mandan who said business conditions were good, but expressed surprise.

"There is no need to be surprised," Mr. Milloy said. "They ought to be surprised if they are not good. There is too much stability in this western country. One cannot figure on the basis of conditions in 1890 and 1895 when there were a few homesteads scattered over the prairies."

"The Southwest corner of the state is in good shape, not booming, and crops generally are fair, somewhat spotted. There is no danger of going back to the times in 1917 and 1918 when things really were bad. The light industry brings probably a million dollars a year in Burlington county alone. Interests in the section are more diversified than ever before."

"Bank clearings show an increase, and so do postal receipts. So why argue about conditions? Facts are facts."

With regard to the northwestern part of the state he said that the Minot section this year is in equally as good shape as last year, perhaps better. There is a good crop from Donnybrook west, almost as good as last year, the biggest crop in many years. The crop is spotted but on the whole good, he added.

Many farmers have had a difficult time, he said, but in discussing business conditions the whole field must be surveyed and it gives good ground for optimism, he added.

DEVINE WILL GIVE LECTURE

Joseph M. Devine, commissioner of immigration, who has resumed his duties after an illness of several days, expects to go to Minneapolis in September to deliver a radio lecture on North Dakota agricultural possibilities. He was invited to speak September 3 but was forced to decline that date.

LICENSES DENIED TWO

Attorney-General Says Licenses Must Obey the Law

Applications for state licenses have been denied Mrs. Pearl Hoffman, operating a soft drink and cigar stand at 202 Front street, Fargo, and S. Steinman, operating a pool hall and soft drink business at 210 Front street, Fargo, by Attorney-General George Shaffer. The persons denied applications may appeal to the courts.

The Attorney-General denied the licenses in each case on the ground that liquor had been seized in them, that Steinman had pleaded guilty to such an offense and had been found guilty of other violations of the law and that Ben Hoffman, husband of Mrs. Hoffman, had pleaded guilty to violating the liquor laws.

The findings, conclusions and order denying application for license were issued by Mr. Shaffer upon the record of evidence taken before a deputy who held hearings at Fargo.

It is to be the policy of the Attorney-General to conduct such hearings when there appears doubt as to whether license to conduct a business licensed should be granted, and to decide upon the evidence.

STOLEN CAR FOUND DITCHED

Jamestown, N. D., Aug. 25.—A Ford touring car abandoned in a ditch near here proved to be the one stolen from a garage at New York Mills, Minn., last Sunday. One wheel of the car was broken and it had been stripped of removable parts. Minnesota authorities were immediately notified.

City schools of Bismarck will open on Labor Day, September 3. The bells will ring as usual on the morning of that day, but the fact that the schools are opening will not deprive children of an opportunity to participate in the Labor Day celebration or other festivities of the holiday in Bismarck, it is announced.

MANUFACTURE NEW PRODUCT IN BISMARCK

Northern Produce Company Puts its "Buttermilk Flour" Plant in Operation

ONLY TWO IN STATE

Buttermilk, Formerly Waste Product, Is Reduced and Sold for Stock Food Use

The Northern Produce Company of Bismarck will ship, probably on Monday, the first car of "buttermilk flour," a new product being manufactured in Bismarck. The local plant of the Northern Produce and one at Minot are the only two in North Dakota to enter this business.

The product is being manufactured in the Bismarck plant in a new addition built especially for the purpose. The addition is a one-story brick, 35x47, with cement floor.

A buttermilk drying plant also is comparatively new to the industry, having been developed in the last few years. Buttermilk in its raw state is a great feeding product, it is explained, but cannot be transported in great quantities in its raw state. So the system of reducing the buttermilk to powder was evolved. In the powdered form it is used by big stock food companies in blending and balancing foods, containing rich elements. In the vernacular of the business the product is called "buttermilk flour."

Water only is evaporated from the buttermilk, which is produced in the local plant. One hundred pounds of buttermilk will give about eight pounds of powder. The system is another step in the produce industry in utilizing all of the by-products.

Formerly the buttermilk went chiefly into a sewer, but now will go into stock food.

Three extra men are employed in the new plant, and it is just about ready to ship its first car of 35,000 pounds of powdered buttermilk.

Just what the fall season will bring in the way of poultry business is of course uncertain, according to Carl Nelson, manager of the local produce company, but he said there is a greater amount of poultry in this section of the state this year than ever before.

There are some officials at the Agricultural College who believe the number of turkeys produced in the state this year will exceed any other year. Mr. Nelson said an accurate estimate of turkeys cannot be made now.

It is encouraging to note, according to officials of the local produce company, that poultry raisers in this section are turning to the heavier stock, it commanding the best price when sold for meat. Raisers are abandoning scrub stock and light stock, and are benefitting greatly thereby, it is stated.

ROAD WORK BEING DONE

Three Townships Are Improving Their Highways

Much road work is being done by townships in the vicinity of Bismarck at this time.

A mile of road beyond Falconer hill, in Lincoln township, south of the city has been graded and the grading will be continued. Rice township is to do grading work, connecting up with the work of Lincoln township. The road building is on the 20-mile loop road which was built some years ago. The work probably will cost about \$2,000.

A new road is being opened up in Riverview township north of the city. This township also plans work on the river road.

In Sibley Butte township the entire rural mail route is being graded, relined and ditched. The work starts at a point five miles north of McKenzie, goes six miles south, two miles west and three miles south. Practically all of the township road work is being done by farmers, paid with available funds in the township.

STUDY OF WINTER WHEAT BELT BRINGS URGE TO DAKOTA FARMERS TO ROTATE CROPS TO MEET CONDITIONS FACED

Little Agitation for Fixed Price of Wheat Is Found in Kansas by President of North Dakota Agriculture College — Cites Conditions in Winter Wheat Belt and in the Spring Wheat Area of the Northwest

Fargo, N. D., Aug. 25.—Following the completion of a two weeks' tour of the winter wheat states where he made an intensive study of the wheat situation, Dr. J. L. Coulter, president of the North Dakota Agricultural college sends from Galveston, Texas, a detailed and comprehensive report of the findings of his wheat study.

The report is the second of a series of statements made by the president with the sanction of the Wheat Conference and the Fargo Commercial club, in the hopes of arriving at some definite conclusions as to what may be done to better conditions for the North Dakota wheat farmer.

Dr. Coulter's report and letter, dated August 18, follow: "On August 1 I prepared a brief statement with reference to the wheat crisis, to be of service to those attending the Wheat Conference at Fargo. A few days thereafter I left for a tour of the winter wheat states to make a more intensive study of the situation. I have had nearly two weeks to study the problem, and present the following points as a basis to guide us in the spring wheat section.

"First: Winter wheat sown in 1914 the winter wheat farmers planted an average of 33,600,000 acres per year and abandoned 5,500 acres a year or one-tenth of the crop. In 1912 they abandoned almost 6,550,000 acres or 20 percent. From 1915 to 1919 they planted on an average 43,280,000 acres per year and abandoned 5, 100,000 acres a year or about 12 percent. In 1917 they abandoned almost 13,300,000 acres or one-third of the wheat planted.

"Acreage planted may therefore be greatly reduced, varying from 5 to 10 percent to 95 percent of last year. It is not a guide to the spring wheat farmer, production ranged from the winter wheat of 1914 to 1919 to 655 million. "This variation is due to three factors: first, some winters the wheat is winter killed over great areas of the best wheat land in the winter wheat area; second, there are millions of acres of marginal land planted to wheat where farmers do not get more than one or two crops out of each four years. They don't expect to.

"Land is cheap, little preparation is necessary, the cost per acre is low and farmers hope for two good years or one excellent year out of four; third, yields vary from four to 24 bushels over the area, due to variations in growing conditions—drouth, hot winds, diseases, pests, etc.

"Conclusion: Farmers in the spring wheat belt cannot count on any change in the winter wheat belt, and must plan their farming system to fit their own conditions.

"Second: Yield of winter wheat and spring wheat. After eliminating winter killed areas the farmers of the winter wheat belt had an average yield of 16.4 bushels per acre from 1910 to 1914 and 15.1 bushels per acre from 1915 to 1919.

"In the spring wheat belt farmers secured averages of 12.4 bushels and 12.8 bushels per acre. The average for winter wheat farmers was one-fourth or 25 percent greater per acre than for spring wheat farmers for 10 years.

"Conclusion Reached: Assuming variations in freight rates roughly make up for variations in land values and that otherwise the cost per acre of producing wheat is about the same, it would appear that \$1.00 wheat would mean about \$12.50 per acre for spring wheat farmers and about \$16.00 per acre to winter wheat farmers. Again from this standpoint it would seem that spring wheat farmers with such difficulties as late springs, weeds, rust, etc., do not get in the winter wheat belt must work out their own plan to fit their conditions.

"Third: Winter wheat farmers plant spring crops on winter-killed wheat fields. It would appear that farmers in the great winter wheat belt have this advantage as wheat growers—if the wheat is winter-killed they are able to plant spring crops of small grain such as oats, barley, etc. In North Dakota and Oklahoma they may even plant cotton if a failure. Hay crops such as millet, broom grass, etc., are sometimes planted. In other words their land is not left idle growing weeds and not earning rent and taxes.

"Must Change Plan: "Conclusion: I feel that in view of this difference in farm problems it would seem even more important that farmers of the spring wheat belt plan their farm program to secure the same advantages as found farther south.

"By planting wheat in rotation (Continued on page 7)

REICHERT IN PETITION FOR BANKRUPTCY

Company Unable to Pay Debts and Was Facing Two Sheriff's Sales Next Week

ASSETS ARE LISTED

Are About \$13,000 Less Than Liabilities, According to Receiver's Statement

Fargo, Aug. 25.—The Equity Cooperative Packing Company has gone into voluntarily bankruptcy following the filing of a petition here. The petition was followed last night by C. W. Reichert, president of the company, who cites that the company is insolvent.

The assets of the concern are listed at \$142,573.81 with liabilities placed at \$155,241.91. Immediately after Emerson H. Smith, referee in bankruptcy, had this morning adjudged the company bankrupt, Harry Lashowitz, attorney for the company served notice on Louis Altenbernd of Sabin, Minnesota and the Gerlock-Barklow company of Joliet, Illinois, for the release of liens made within the last four months.

Faced by a sheriff's sale scheduled for Monday and Tuesday, August 27 and 28, to satisfy the liens made by Altenbernd and the Gerlock-Barklow company, the directors of the packing company decided that the only step open was to file a petition in bankruptcy.

Liens made prior to the appointment of a temporary receiver are not vitiated by the receivership, case out adjudication of an insolvent company as bankrupt annuls all liens through legal proceedings within four months prior to the filing of the petition, it is said.

No Trustee Named: No trustee in bankruptcy had been appointed up to noon today.

The bankruptcy proceedings will supersede the receivership under which the company has been operating, it is said.

In the liability schedule filed the company lists \$25,453 in taxes, \$1,575 of which is owing to the United States internal revenue department, and the balance to Cass county for personal and real estate taxes for 1920, 1921 and 1922.

Creditors having mortgages against the company are the Bank of North Dakota, \$25,000; the Northwest Audit Company, \$14,430.00; Altenbernd, \$31,022.45; Gerlock-Barklow company, \$46,250; and Jackson Brothers, Minneapolis, \$6,620.00, making a grand total of \$94,324.45.

There are unsecured claims to the number of 200 and certificates of indebtedness, many of them given for work done and for services rendered. The number of 771, totalling \$44,791.22. There are wages due workmen to the amount of \$208.75.

The assets schedule shows a total of \$109,000 as the value placed on the real estate, \$19,231.55 on the personal property and \$33,270.00 as debts due the petitioners on open account. Promissory notes due the company are valued in the petition at \$10,000. Many of these notes were turned over to a Minneapolis company sometime ago for collection but such steps now will have to be recalled, it is said. Notes on which collection was sought totalling \$75,000. Most of them become due this fall.

Year Maneuvering: After nearly a year of maneuvering in an effort to wipe out the company's indebtedness and get the plant in operation, the affairs of the concern are now thrown into bankruptcy court for disposition.

In January of this year Altenbernd, one of the creditors, petitioned Judge Cole; then sitting in the case, for a receivership and at that time a temporary receivership was granted. Later, when the matter was dismissed on stipulation of all parties concerned, the company decided at its annual meeting in January to work out its difficulties on a program with the approval and aid of business men in Fargo.

Subsequently in March another meeting was called to ratify the sale of the plant to a concern which was to be known as the Fargo Packing Company, a corporation organized under the laws of the state of Maryland by H. A. Emerson of New York. At this meeting Mr. Emerson made definite proposals of purchase to the company and these were accepted. Among the stipulations made was that the new company would assume and pay off the Altenbernd deficiency shipment and would meet all the then outstanding obligations of the company. It was expected that the plant would begin operation this fall. Emerson proposed to give the stockholders \$75,000 worth of common stock in exchange for stock then possessed but later on his second visit he changed some of the stipulations in this agreement and agreed to give them a greater share of stock.

Deal Failed: During the summer the Fargo deal fell through, through the non-appearance of Emerson in Fargo to pay off the outstanding indebtedness. After Emerson's failure to complete the negotiations for the purchase of the plant a contract was made with a Minneapolis concern to collect the outstanding notes given by stockholders for the purchase of stock.

In July several stockholders petitioned.

CRITICISM OF WILSON CAUSE OF PROTEST

Former Aid to Wilson Demands Earl of Birkenhead, be Reprimanded for Speech

HITS POST-WAR STAND

New York, Aug. 25.—Characterizing the references to Woodrow Wilson by Viscount Birkenhead, former Lord Chancellor of England, in his address before the Williamson Institute of Politics as "impudent" Henry Breckenridge, assistant secretary to war under Wilson, today protested in a letter to John W. Davis, president of the American Bar Association, against the Viscount being permitted to speak at the association's annual convention in Minneapolis.

Mr. Breckenridge urged that "if proved necessary" for Viscount Birkenhead to make the scheduled address "it be intimated to him that the expression of such an opinion concerning a great American statesman is impudent and intolerant of any self-respecting American audience."

WHAT HE SAID

Williamstown, Mass., Aug. 25.—In an appeal to America to join the allies in "winning the peace" the Earl of Birkenhead, former Lord Chancellor of Great Britain, emphasized in the final lecture of the Institute of Politics last night that self-interest alone should determine this country's course. He asserted the world was not yet ready for the idealism of Woodrow Wilson.

Lord Birkenhead declared that the world probably would not survive if idealism were given a complete free reign; no nation in democratic condition would become the knight errant of the world. He said Mr. Wilson's judgment of his countrymen was wrong and through this error he became the agent of all post-war developments from which altruistic minds would have recoiled.

He insisted that Germany should be made to pay as a warning to others, declaring that a dozen unscrupulous but powerful men deliberately, privately in Berlin had decided upon the world war.

The Weather

For Bismarck and vicinity: Fair tonight and Sunday. Not much change in temperature.

For North Dakota: Fair tonight and Sunday. Not much change in temperature.

General Weather Conditions

Light precipitation occurred over the northeastern Rocky Mountain region, in the Dakotas and in the Great Lakes region. Elsewhere the weather is generally fair. Cool weather prevails in all sections.

Road Conditions

The roads throughout the State are mostly in good condition, but they are rough in places.

REJECT BIDS ON SCORIA

County commissioners of Stark county, in session at Dickinson, rejected bids for use of scoria, the red brickish material found in abundance in western North Dakota, for use instead of gravel in surfacing seven miles of federal aid road north and south of Dickinson, according to A. D. McKinnon, state highway commission engineer. Bids were rejected because the distance necessary to haul the scoria made the cost probably \$3,000 more than gravel found near by, he said. New bids on gravel surfacing will be asked.

PROPERTY IS VALUED

State Board Assesses Express
Company, Pullman Com-
pany, Etc.

Valuation of the express, Pullman car, telegraph and street railway company property in North Dakota for taxation purposes for 1923, as fixed by the state board of equalization, is \$2,892,672 as compared to \$2,835,003 last year. The valuation of these properties follows:

American Railway Express, 1922, \$892,405; 1923, \$892,405; Pullman Car Company, 1922, \$242,469; 1923, \$237,490; telegraph companies, 1922, \$1,306,257; 1923, \$1,306,257; street railway companies, 1922, \$393,872; 1923, \$356,448.

Valuation of the street railway companies follows: Fargo-Moorhead company, 1922, \$251,757; 1923, \$216,488; Grand Forks, 1922, \$76,440; 1923, \$76,440; Valley City Interurban Co., 1922, \$54,900; 1923, \$54,900; Wahpeton-Breckenridge St. Ry. Co., 1922, \$10,775; 1923, \$6,820.

The valuation of telephone property in the state for 1923 is \$5,066,908 as compared to \$5,325,438 last year, it being said there is an actual decrease in telephones due to decrease in business of small private and farmers' companies.

TWO KILLED IN BAD FLOOD

El Paso, Tex., Aug. 25.—Two persons were killed, seven severely injured and a score slightly hurt in a flood which did \$200,000 damage to dole homes in the lowlands of Juarez, across the Rio Grande from here last night.

GEN. MARCH IS MARRIED

London, Aug. 25.—Major-General Peyton C. March, former chief of staff of the American Army and Miss Cora Virginia McIntee of New York City were married today at the registry office in Buckingham Palace Road.

Hen's egg was found in a Lake Pocotapung bass. If we could only track bass to lay hen eggs.

Chiropractors' convention says examine her feet before marrying. We say examine finger nails.

VISITOR HERE SEES BUSINESS GOOD ON SLOPE

James Milloy, of Minot, A. of

C., Reports Discussions
With Business Men

GOOD IN NORTHWEST

Business interests in western North Dakota generally are well satisfied with conditions, James Milloy, secretary of the Minot Association of Commerce, said in Bismarck today.

There is, however, he added, too much "calamity howling" in the eastern part of the state which injures the entire state.

Mr. Milloy was in Bismarck today, returning from Dickinson on business. He said he talked with two business men in Dickinson and Mandan who said business conditions were good, but expressed surprise.

"There is no need to be surprised," Mr. Milloy said. "They ought to be surprised if they are not good. There is too much stability to this western country. One cannot figure on the basis of conditions in 1890 and 1895 when there were a few homesteads scattered over the prairies."

"The Southwest corner of the state is in good shape, not booming, and crops generally are fair, somewhat spotted. There is no danger of going back to the times in 1917 and 1918 when things really were bad. The light industry brings probably a million dollars a year in Burleigh county alone. Interests in the section are more diversified than ever before."

"Bank clearings show an increase, and so do postal receipts. So why argue about conditions? Facts are facts."

With regard to the northwestern part of the state he said that the Minot section this year is in equally as good shape as last year, perhaps better. There is a good crop from Donnybrook west, almost as good as last year, the biggest crop in many years. The crop is spotted but on the whole good, he added.

Many farmers have had a difficult time, he said, but in discussing business conditions the whole field must be surveyed and it gives good ground for optimism, he added.

U. S. FLAG IS IS FIRED UPON

Athens, Aug. 25 (By the A. P.)—A telegram from the island of Imbros reports that a naptha launch carrying the American flag and carrying refugees was fired upon by Turkish soldiers at Gallipoli, one man being killed and a woman badly wounded.

The exact circumstances of the affair are lacking, but it appears that the boat left Mafios on the Gallipoli peninsula for Kavala, a Greek seaport, when owing to the failure of the engine the craft drifted helplessly toward the town of Gallipoli where it drew the fire of the Turks.

DEVINE WILL GIVE LECTURE

Joseph M. Devine, commissioner of immigration, who has resumed his duties after an illness of several days, expects to go to Minneapolis in September to deliver a radio lecture on North Dakota agricultural possibilities. He was invited to speak September 3 but was forced to decline that date.

LICENSES DENIED TWO

Attorney-General Says Licen-
sees Must Obey the Law

Applications for state licenses have been denied Mrs. Pearl Hoffman, operating a soft drink and cigar stand at 202 Front street, Fargo, and S. Steinman, operating a pool hall and soft drink business at 210 Front street, Fargo, by Attorney-General George Shafer. The persons denied applications may appeal to the courts.

The Attorney-General denied the licenses in each case on the ground that liquor had been seized in them, that Steinman had pleaded guilty to such an offense and had been found guilty of other violations of the law and that Ben Hoffman, husband of Mrs. Hoffman, had pleaded guilty to violating the liquor laws.

The findings, conclusions and order denying application for license was issued by Mr. Shafer upon the record of evidence taken before a deputy who held hearings at Fargo.

It is to be the policy of the Attorney-General to conduct such hearings when there appears doubt as to whether license to conduct a business licensed should be granted, and to decide upon the evidence.

STOLEN CAR FOUND DITCHED

Jamestown, N. D., Aug. 25.—A Ford touring car abandoned in a ditch near here proved to be the one stolen from a garage at New York Mills, Minn., last Sunday. One wheel of the car was broken and it had been stripped of removable parts. Minnesota authorities were immediately notified.

SCHOOLS WILL OPEN HERE LABOR DAY; SHORT SESSION PLANNED BY OFFICIALS

City schools of Bismarck will open on Labor Day, September 3. The bells will ring as usual on the morning of that day, but the fact that the schools are opening will not deprive children of an opportunity to participate in the Labor Day celebration or other festivities of the holiday in Bismarck. It is announced.

A state law was passed last winter which abolished most of the school holidays. Among those abolished was Labor Day. Under the law it is necessary to hold school on Monday, September 3, this being the usual time of opening of the term.

As usual, however, on the first day of school the chief business of the day will be registration, assign-

MANUFACTURE NEW PRODUCT IN BISMARCK

Northern Produce Company
Puts Its "Buttermilk Flour"
Plant in Operation

ONLY TWO IN STATE

Buttermilk, Formerly Waste
Product, Is Reduced and
Sold for Stock Food Use

The Northern Produce Company of Bismarck will ship, probably on Monday, the first car of "buttermilk flour," a new product being manufactured in Bismarck. The local plant of the Northern Produce and one at Minot are the only two in North Dakota to enter this business.

The product is being manufactured in the Bismarck plant in a new addition built especially for the purpose. The addition is a one-story brick, 35x47, with cement floor.

A buttermilk drying plant also is comparatively new to the industry, having been developed in the last few years. Buttermilk in its raw state is a great feeding product, it is explained, but cannot be transported in great quantities in its raw state. So the system of reducing the buttermilk to powder was evolved. In the powdered form it is used by big stock food companies in blending and balancing foods, containing rich elements. In the vernacular of the business the product is called "buttermilk flour."

Water only is evaporated from the buttermilk, which is produced in the local plant. One hundred pounds of buttermilk will give about eight pounds of powder. The system is an other step in the produce industry in utilizing all of the by-products. Formerly the buttermilk went chiefly into a sewer, but now will go into stock food.

Three extra men are employed in the new plant, and it is just about ready to ship its first car of 86,000 pounds of powdered buttermilk.

Much Poultry

Just what the fall season will bring in the way of poultry business is of course uncertain, according to Carl Nelson, manager of the local plant. However, he said, there is a greater amount of poultry in this section of the state this year than ever before. There are some officials at the Agricultural College who believe the number of turkeys produced in the state this year will exceed any other year. Mr. Nelson said an accurate estimate of turkeys cannot be made now.

It is encouraging to note, according to officials of the local produce company, that poultry raisers in this section are turning to the heavier work of raising turkeys. When sold for meat, turkeys are abandoned scrub stock and light stock, and are benefiting greatly thereby, it is stated.

ROAD WORK BEING DONE

Three Townships Are Improv-
ing Their Highways

Much road work is being done by townships in the vicinity of Bismarck at this time.

A mile of road beyond Falconer hill, in Lincoln township, south of the city has been graded and the grading will be continued. Rice township is to do grading work, connecting up with the work of Lincoln township. The road building is on the 20-mile loop road which was built some years ago. The work probably will cost about \$2,000.

A new road is being opened up in Riverview township north of the city. This township also plans work on the river road.

In Sibley Butte township the entire rural mail route is being regraded, relined and ditched. The work starts at a point five miles north of McKenzie, goes six miles north, two miles west and three miles south. Practically all of the township road work is being done by farmers, paid with available funds in the townships.

Conclusion Reached

"Conclusion: Assuming that variations in freight rates roughly make up for variations in land values and that otherwise the cost per acre of producing wheat is about the same, it would appear that \$1.00 wheat would mean about \$12.50 per acre for spring wheat farmers and about \$16.00 per acre to winter wheat farmers. Again from this standpoint it would seem that spring wheat farmers with such difficulties as late springs, weeds, rust, etc., not met in the winter wheat belt must work out their own plan to fit their conditions."

"Third: Winter wheat farmers plant spring crops on winter-killed wheat fields. It would appear that farmers in the great winter wheat belt have this advantage as wheat growers—if the wheat is winter-killed they are able to plant spring crops of small grain such as oats, barley, etc. In North Dakota and Oklahoma they may even plant cotton if such their wheat is a failure. Hay crops such as millet, broom grass, etc., are sometimes planted. In other words their land is not left idle growing weeds and not earning rent and taxes."

Most Cautious Plan

"Conclusion: I feel that in view of this difference in farm problems it would seem even more important that farmers of the spring wheat belt plan their farm program to secure the same advantages as found farther south."

"By planting wheat in rotation (Continued on page 7)

STUDY OF WINTER WHEAT BELT BRINGS URGE TO DAKOTA FARMERS TO ROTATE CROPS TO MEET CONDITIONS FACED

Little Agitation for Fixed
Price of Wheat Is Found in
Kansas by President of
North Dakota Agriculture
College—Cites Conditions
in Winter Wheat Belt and
in the Spring Wheat Area
of the Northwest

Fargo, N. D., Aug. 25.—Following the completion of a two weeks' tour of the winter wheat states where he made an intensive study of the wheat situation, Dr. J. L. Coulter, president of the North Dakota Agricultural college sends from Galveston, Texas, a detailed and comprehensive report of the findings of his wheat study.

The report is the second of a series of statements made by the president with the sanction of the Wheat Conference and the Fargo Commercial club, in the hope of arriving at some definite conclusions as to what may be done to better conditions for the North Dakota wheat farmer.

Dr. Coulter's report and letter, dated August 18, follow:

"On August 1 I prepared a brief statement with reference to the wheat crisis, to be of service to those attending the Wheat Conference at Fargo. A few days thereafter I left for a tour of the winter wheat states to make a more intensive study of the situation. I have had nearly two weeks to study the problem, and present the following points as a basis to guide us in the spring wheat section."

"First: Winter wheat sown vs. winter wheat harvested. From 1910 to 1914 the winter wheat farmers planted an average of 35,650,000 acres of wheat and abandoned 3,500,000 acres a year or over 10 percent. In 1912 they abandoned almost 6,500,000 acres or 20 percent. From 1915 to 1919 they planted on an average 43,280,000 acres per year and abandoned 5,100,000 acres a year or about 12 percent. In 1917 they abandoned almost 13,300,000 acres or one-third of the wheat planted."

Acreage Reduced

"Acreage planted may therefore be greatly reduced, varying from two percent to 35 percent of loss. It is a guide to the spring wheat farmers in ten years the winter wheat production ranged from less than 400 million bushels up to 685 million. "This variation is due to three factors: first, some winters the wheat is winter killed over great areas of the best wheat land in the winter wheat area; second, there are millions of acres of marginal land planted to wheat where farmers don't get more than one or two crops out of each four years. They don't expect to."

"Land is cheap, little preparation is necessary, the cost of seed is small, farmers hope for two good years or one excellent year out of four; third, yields vary from four to 24 bushels over the area, due to variations in growing conditions—drouth, hot winds, diseases, pests, etc."

"Conclusion: Farmers in the spring wheat belt cannot count on any change in the winter wheat belt, and must plan their farming system to fit their own conditions."

"Second: Yield of winter wheat and spring wheat. After eliminating winter killed acreage the farmers of the winter wheat belt have an average yield of 15.4 bushels per acre from 1910 to 1914 and 15.1 bushels per acre from 1915 to 1919."

"In the spring wheat belt farmers secured averages of 12.4 bushels and 12.8 bushels per acre. The average for winter wheat farmers was one fourth or 25 percent greater per acre than for spring wheat farmers for 10 years."

"Conclusion: Assuming that variations in freight rates roughly make up for variations in land values and that otherwise the cost per acre of producing wheat is about the same, it would appear that \$1.00 wheat would mean about \$12.50 per acre for spring wheat farmers and about \$16.00 per acre to winter wheat farmers. Again from this standpoint it would seem that spring wheat farmers with such difficulties as late springs, weeds, rust, etc., not met in the winter wheat belt must work out their own plan to fit their conditions."

"Third: Winter wheat farmers plant spring crops on winter-killed wheat fields. It would appear that farmers in the great winter wheat belt have this advantage as wheat growers—if the wheat is winter-killed they are able to plant spring crops of small grain such as oats, barley, etc. In North Dakota and Oklahoma they may even plant cotton if such their wheat is a failure. Hay crops such as millet, broom grass, etc., are sometimes planted. In other words their land is not left idle growing weeds and not earning rent and taxes."

Most Cautious Plan

"Conclusion: I feel that in view of this difference in farm problems it would seem even more important that farmers of the spring wheat belt plan their farm program to secure the same advantages as found farther south."

Company Reduces Shipping Charges

Linton, Aug. 25.—The Haskell Shipping Agency has reduced the charge of handling live stock from 2 to 1 percent. The reserve fund of \$200 which was to be built up through the 2 cent charge has now been accumulated and Manager Matthews believes that a 1-cent commission per dollar will pay the association's expense of handling the stock. A shipping expense of 75 cents per hundred weight on cattle and 85 cents on hogs is added to this. Outside of this charge the customers get all the money their stock brings at the St. Paul market.

CRITICISM OF WILSON CAUSE OF PROTEST

Former Aid to Wilson De-
mands Earl of Birkenhead
be Reprimanded for Speech

HITS POST-WAR STAND

New York, Aug. 25.—Characterizing the references to Woodrow Wilson by Viscount Birkenhead, former Lord Chancellor of England, in his address before the Westminster Institute of Politics as "impudent" Henry Breckenridge, assistant secretary to war under Wilson, today protested in a letter to John W. Davis, president of the American Bar Association, against the Viscount being permitted to speak at the association's annual convention in Minneapolis.

Mr. Breckenridge urged that "if proved necessary" the Viscount be asked to make the scheduled address "it be intimated to him that the expression of such an opinion concerning a great American statesman is impudent and intolerant to any self-respecting American audience."

WHAT HE SAID

Williamstown, Mass., Aug. 25.—In an appeal to America to join the allies in "winning the peace" the Earl of Birkenhead, former Lord Chancellor of Great Britain, emphasized in a letter to John W. Davis, president of the American Bar Association, against the Viscount being permitted to speak at the association's annual convention in Minneapolis.

Mr. Breckenridge urged that "if proved necessary" the Viscount be asked to make the scheduled address "it be intimated to him that the expression of such an opinion concerning a great American statesman is impudent and intolerant to any self-respecting American audience."

Lord Birkenhead declared that the world probably would not survive if idealism were given a complete free reign; no nation in democratic condition would become the knight errant of the world. He said Mr. Wilson's judgment of his countrymen was wrong and through this error he had made the mistake of not developing from which altruistic minds would have recoiled.

He insisted that Germany should be made to pay as a warning to others, declaring that a dozen unscrupulous but powerful men deliberately, privately in Berlin had decided upon the world war.

The Weather

For Bismarck and vicinity: Fair tonight and Sunday. Not much change in temperature.

For North Dakota: Fair tonight and Sunday. Not much change in temperature.

General Weather Conditions

Light precipitation occurred over the northeastern Rocky Mountain region, in the Dakotas and in the Great Lakes region. Elsewhere the weather is generally fair. Cool weather prevails in all sections.

Road Conditions

The roads throughout the State are mostly in good condition, but they are rough in places.

REICHERT IN PETITION FOR BANKRUPTCY

Company Unable to Pay Debts
and Was Facing Two Sher-
iff's Sales Next Week

ASSETS ARE LISTED

Are About \$13,000 Less Than
Liabilities, According to
Receiver's Statement

Fargo, Aug. 25.—The Equity Cooperative Packing Company has gone into voluntarily bankruptcy following the filing of a petition here.

The petition was followed last night by C. W. Reichert, president of the company, who cites that the company is insolvent.

The assets of the concern are listed at \$142,573.61 with liabilities placed at \$155,241.91.

Immediately after Emerson H. Smith, referee in bankruptcy, had this morning adjudged the company bankrupt, Harry Lawshovitz, attorney for the company served notice on Louis Altenbernd of Sabin, Minnesota and the Gerlock-Barklow company of Joliet, Illinois, for the release of levies made within the last four months.

Faced by a sheriff's sale scheduled for Monday and Tuesday, August 27 and 28, to satisfy the levies made by Altenbernd and the Gerlock-Barklow Company, the directors of the packing company decided that the only step open was to file a petition in bankruptcy.

Levies made prior to the appointment of a temporary receiver are not vitiated by the receivership case but adjudication of an insolvent company is bankruptcy proceedings within four months prior to the filing of the petition, it is said.

No Trustee Named

No trustee in bankruptcy had been appointed up to noon today.

The bankruptcy proceedings will supersede the receivership under which the company has been operating, it is said.

In the liability schedule filed the company lists \$25,458 in taxes, \$1,576 of which is owing to the United States Internal Revenue department, and the balance to Cass county for personal and real estate taxes for 1920, 1921 and 1922.

Creditors having mortgages against the company are the Bank of North Dakota, \$32,229.89; The Northwestern Audit company, \$480; Lewis A. Altenbernd, \$32,224.45; Gerlock-Barklow company, \$462.60, and Jackson Brothers, Minneapolis, \$6,230.00, making a grand total of \$84,864.95.

There are unsecured claims to the number of 200 and certificates of indebtedness, many of which are given for work done and for services rendered to the number of 771, totalling \$44,791.23. There are wages due workmen to the amount of \$802.75.

The assets schedule shows a total of \$100,000 as the valuation placed on the real estate, \$19,231.55 on the personal property and \$480 on debts due the petitioners on open account.

Promissory notes due the company are valued in the petition at \$10,000. Many of these notes were turned over to a Minneapolis company some time ago for collection but such steps have not been taken as to collect them. Notes on which collection was sought totalling \$200,000. Most of them become due this fall.

Year Maneuvering

After nearly a year of maneuvering in an effort to wipe out the company's indebtedness and get the plant out of operation, the concern are now thrown into bankruptcy court for disposition. In January of this year Altenbernd, one of the creditors, petitioned Judge Cole, then sitting in the case, for receivership and at that time a temporary receiver was granted. Later this receivership was dismissed on stipulation of all parties concerned, the company deciding at its annual meeting in January to work out its difficulties on a program with the approval and aid of business men in Fargo.

Subsequently in March another meeting was called to ratify the sale of the plant to a concern which was to be known as the Fargo Packing Company, a corporation organized under the laws of the state of Maryland by H. A. Emerson of New York. At this meeting Mr. Emerson made definite proposals of purchase to the company and these were accepted. Among the stipulations made was that the new company would assume and pay off the Altenbernd deficiency, and payment would meet all the then outstanding obligations of the company. It was expected that the plant would begin operation this fall. Emerson proposed to give the stockholders \$750,000 worth of common stock in exchange for stock then possessed but later, on his second visit he changed some of the stipulations in this agreement and agreed to give them a greater share of stock.

Deal Failed

JAP PREMIER, FRIEND OF U.S., DIES IN TOKIO

Admiral Kato Dies from Cancer. According to Japanese Newspapers

DISTINGUISHED CAREER

When He Took Premiership He Began Friendly Acts Toward U. S.

(B. the Associated Press.) Tokyo, Japan, Aug. 24.—Premier Terauchi Kato died this afternoon apparently from a complication of maladies that weakened his heart beyond repair. Admiral Baron Kato was born in 1859 and had a distinguished career in the naval, administrative and diplomatic circles before he was elevated to the premiership last year.

While the report was current early today that the premier had died at 10:30 p. m., official confirmation was withheld until shortly before 3 o'clock. The exact cause of the death was not announced but the Japanese press with some show of authority has been stating that Baron Kato was suffering from cancer.

The attending physicians reported stomach trouble and hemorrhoids and issued reassuring bulletins to the press, but that of noon today, saying that his condition had grown worse since midnight with some signs of exhaustion. It was added, though, that little improvement had been shown since midnight and the patient's heart was causing anxiety.

It is understood that Foreign Minister Uchida will act as premier until after the funeral.

The entire cabinet will then resign and a new one will be chosen under whoever is chosen premier.

Premier Kato attained his eminence among the noted men of Japan as the right hand man of Admirals Togo and Kammura, in the Russo-Japanese war. He entered the war as a captain and emerged as a rear admiral, chief of staff of the first squadron of the Japanese navy with the decoration of the second class order of the Golden Kite.

Taking over the portfolio of the navy in 1916, Baron Kato became a strong partisan of the advancement of friendly relations between Japan and the United States. At the Washington arms conference, where he was a member of the Japanese delegation, he was credited with being one of the strongest proponents of the naval accord treaty.

Admiral Baron Kato was confirmed as premier of Japan, June 12, 1922, his cabinet succeeding that of Viscount Takahashi which resigned June 6.

MINERS AND OPERATORS IN MEETING YET

Question of Maintaining Mines, However, Said Only One Now Being Considered

Atlantic City, Aug. 24.—Necessity for completing arrangements to prevent anthracite mines from caveins after Sept. 1, in the event of a strike was said to be the chief factor in holding representatives of anthracite mine workers and officials of mine unions at Atlantic City today. No discussion of the terms on which the union would allow engineers and maintenance men to continue in service had been entered upon but both groups considered the matter. On other than this point there was held to be no prospect of a renewal of the negotiation of the employers and the union leaders. The provisions for maintenance work would be the only final indications what lines had been drawn for the endurance test.

PRESIDENT NOT FAVORABLE TO EXTRA SESSION

Writes to Congressman Roy Johnson That It Apparently Would Not Help

STILL CONSIDERING

Aberdeen, S. D., Aug. 24.—President Coolidge in a letter to Congressman Roy Johnson "this city makes reply to his recent appeal for a special session of congress to be devoted to farmer aid, to the effect that while the government is making every effort to find some plan of relief up to the present time congressional action has not seemed expedient." Commenting upon the letter Congressman Johnson says, "President Coolidge has not closed the door against a special session of congress but he has no immediate intention of calling one."

CITY ELECTRIC RATE ACTION IS UNDECIDED

Steps to Set Aside Injunction Deemed Necessary by Chairman of the Body

An injunction against the state railroad commission still obtains in the matter in which it attempted to review the rates and charges of the Hughes Electric Company of Bismarck, after, according to commission accountants, the books of the company showed it was making more than the return on the investment allowed by law, according to the view of Chairman Frank Milhollan.

When the commission ordered a hearing the Hughes company applied to District Judge Nessle for an injunction, which was granted. The constitutionality of the laws conferring powers over utilities on the railroad commission was upheld in a decision of the supreme court early this week.

Chairman Milhollan said that John Thorpe, first assistant Attorney General, who had handled the state's case before the supreme court, was out of the city and until he conferred with him he could not say just what line of action the commission might pursue.

He said that he presumed the injunction still continued and the railroad commission would have to ask to have it set aside, in view of the decision of the supreme court and that it would be set aside. The Hughes company had been required to put up a bond in the matter, which was supposed to protect consumers.

CULLING OF FLOCKS PAYS, RECORDS SHOW

Fargo, N. D., Aug. 24.—That the careful culling of the farm flocks pays in increased egg production, is the conclusion reached by several North Dakota farmers who have kept careful egg records during July, said O. A. Barton, chairman of the poultry department.

Mrs. L. E. Stillman of Valley City, secured 781 eggs during July from 35 White Leghorns. This is an average of 22 eggs per hen for this month, and is the largest average of any report to the poultry specialist.

Mrs. William Wiltshire, Carrington, reports an average of 18 eggs per hen for the month. These also were White Leghorns of the single comb variety. C. M. Ansen, Portland, who keeps Barred Rocks, secured an average of 14 eggs per hen. Other poultry raisers who had high producing hens were C. L. Vangerud, Kindred; Mrs. John Bishoff, Cogswell; and E. A. Regelein, Litchville.

The flocks owned by each of these poultry raisers were carefully culled last fall, and the pullets and hens that were retained have been given excellent care," said Mr. Barton. "A daily record of the eggs laid is kept, and at the end of the month, it is forwarded to the offices of the poultry agent of the North Dakota Agricultural college."

ALL FLYING TIME BROKEN

Air Mail in Relay Across Nation in 26 Hours

Hempstead, N. Y., Aug. 24.—All records for a flight across the continent were broken today when Pilot Wesley Smith of the air mail service landed here at 11:14 o'clock, eastern standard time, completing a relay mail flight from San Francisco in 26 hours and 14 minutes.

COUNTY EGG PRODUCTION CONTEST, PLAN

Fargo, N. D., Aug. 24.—A county egg-production contest may occur next year, as a result of the excellent showing made by Williams county during the first six months of 1923. E. G. Schollander, county agent, sent in to O. A. Barton a carefully prepared poultry egg record which gave the home of the breeder, the breed of poultry, average number of eggs per month, total number of eggs for the six months, and the average number of eggs per hen per month. This record includes all of the hens upon each farm, and each flock was culled last fall and records kept of their egg production since the first of the year.

The lowest record of any farm in this county was 6.9 eggs per hen per month, and the highest record was 11.9 eggs per hen per month.

"It should be remembered," said Mr. Barton, state poultry agent "that these records included also the months of January and February, when fewer eggs are laid. The record shows what can be done in a county where the farmers and county agent are working together in a determined effort to raise the revenue from poultry raising. I expect many other counties of the state may be planning the same methods of culling and keeping daily records. A little friendly rivalry next year among the counties of the state may be the expected result."

MRS. COOLIDGE FAILS TO WIN

New York, Aug. 24.—Mrs. Calvin Coolidge, wife of the president was not among the winners announced in the knitting contest she entered a few months ago while summering in New England, but she at least has the satisfaction of knowing that a New Englander won the capital prize. Incidentally, she won honorable mention.

The winner of the first prize \$2,000, was Mrs. Elizabeth C. Wyman, of Jamestown, R. I., whose sweater and scarf set was adjudged to be the most beautiful and workmanlike of all the thousands of articles submitted.

LADDIE BOY IN HIS NEW HOME

Newtonville, Mass., Aug. 24.—Laddie Boy, Airedale pet of the late President Harding was installed in his new home here with Mrs. Henry L. Barker wife of the secret service man of whom Mrs. Harding gave him. The dog was brought from Washington by Russell Barker, son of the

secret service man. Young Barker, who is a member of a camping party at Plymouth, stopped at the town en route to show Laddie Boy to his friends. Meeting a small army of photographers cooled their heels here until Laddie Boy and his conductor arrived.

Tramway Menaces Ancient Arches Of Peking, China

Peking, Aug. 24.—The "pailous," ornamental archlike affairs of wooden beams with carvings and scrolls painted in blues, greens and reds and which lead an added quaintness to Peking's streets, are threatened with destruction through construction of street railways in the capital.

The "pailous" span the principal streets at intervals. Their bases rest on the roadway and would interfere with the proposed surface lines. The municipal authorities are putting up a fight for their preservation or rebuilding where it is absolutely essential that they be pulled down, but the tramway company opposes this idea on the ground of expense.

HAY FEVER Treated at Home

To avoid hay fever entirely, go away for two months. If you can't go, Vicks will help you endure it at home. Keep Vicks in the nostrils to protect the membranes. Inhale the vapors of Vicks melted in a spoon to clear the head.

A rub with Vicks at bedtime will often keep away asthma.

FLORIDA PLANS OVERSEA WAY

Plan Route of 125 Miles Similar to Present Rail-way

Tallahassee, Fla., Aug. 25.—An "Overseas Highway" paralleling the "Overseas Railway" from the Key West to the Florida mainland, a distance of approximately 125 miles, is the possibility of the not distant future if plans of Key West civic leaders are carried out. They seek to supplement means of travel to and from the little city which was entirely cut off from the mother state until the Florida East Coast railroad was completed in 1912.

Plans already have progressed to the point of investigating the feasibility of the road, the committee that made the survey pronouncing the matter largely one of finances. A practical highway can be constructed over the distance, except for bridges, the committee reported, for approximately \$1,500,000. Recommendation that ferries be used over the stretches of open water until funds are available for bridge building was made.

Unless outside aid is rendered, however, construction of the road may be completed only in sections owing to Monroe county's ability to bond itself above \$500,000. A date early in September is being discussed as the time to vote on a bond issue to begin the work.

The state highway department, at its last quarterly meeting, voted to give the project its assistance to the extent of engineering advice.

MAN INJURED.—Grand Forks, Aug. 25.—Through the accidental discharge of a shotgun, William Brown, of Mayville, is in a local hospital with a badly shattered knee. The accident occurred Monday noon, and Mrs. Brown was immediately brought to Grand Forks for medical attention.

Mr. Brown was carrying the loaded gun in his automobile, and as he alighted from the machine at his home the piece was accidentally discharged. The attending physician was uncertain as to the possibility of the leg having to be amputated.

SHOULDER INJURED.—Reynolds, N. D., Aug. 25.—Ed. Oatlie of this place suffered a painful injury to the shoulder when a car under which he was working slipped from two boxes which held it up, the weight of the machine pinning him to the ground. He was released by his father. No bones were broken.

EGYPT USES JAP TOBACCO.—Tokyo, Aug. 25.—Japanese tobacco of inferior quality is being sent from Japan to Egypt in increasing quantities, blended there, brought back as "Egyptian" cigarettes and sold by the Japanese tobacco monopoly at high prices.

In 1922, according to the Japan Economist, approximately 1,368,000 boxes of this tobacco were thus treated and the amount will be exceeded this year.

REICHERT IN PETITION FOR BANKRUPTCY

(Continued From Page One)
tioned for a receivership and John Martin was appointed temporary receiver by Judge Cole. Later before the hearing on the motion to make the temporary receivership permanent an affidavit of prejudice was filed against Judge Cole, who sent the case to Judge Englert of Valley City. The latter dismissed the proceedings on the ground that they had been improperly brought. He said stockholders had no right to take such steps when they had other resources at law or in equity.

Subsequently several creditors of the company appeared before Judge Englert and asked for the appointment of a receiver. George Branstrop, formerly secretary of the company, was then appointed temporary receiver.

No Judge Named
Last Saturday was the day set to make permanent the last receivership and attorneys representing Altenbernd intervened, filing a petition of prejudice against Englert. Englert decided that he did not care to sit in the case as long as there was objection and therefore sent the record of the case to the supreme court pending the appointment of a new judge in the case.

No new judge had been appointed up to the time of the filing of the bankruptcy petition.

Drop In Gas Is Unreasonable Says Independent Dealer

Minot, N. D., Aug. 24.—While the margin of profit existing on gasoline previous to Aug. 14, when a drop in price was recorded in North Dakota, was unduly large, with the reversal of conditions now brought about it is doubtful if it is possible for the smaller oil companies to make a reasonable profit this year. Henry M. Wilson, of Minot, an independent oil dealer, declares. The same sentiment is expressed by Mr. Wilson in a letter he has addressed to Governor R. A. Nestos.

"In my opinion a drop of five cents a gallon instead of 6.6 cents a gallon on the 14th would have been reasonable and would have permitted the independent dealers to operate and make a reasonable margin of profit," declared Mr. Wilson.

HUSBAND TAKES POISON AFTER FAMILY QUARREL.
Hillsboro, N. D., Aug. 25.—Draining the contents of a bottle of carbolic acid in the presence of his wife and others, John Hoppe, 30, committed suicide in front of the farm residence of his father-in-law, Fred Sommerfeldt, near Mayville.

Hoppe, whose home is at Crosby, Minn., became estranged from his wife some weeks ago. Mrs. Hoppe returned to her parents a few weeks ago and Hoppe followed and attempted a reconciliation, but failed.

The coroner pronounced the death a plain case of suicide.

KANSAS WHEAT CROP IS LESS

Topeka, Kan., Aug. 24.—The Kansas winter wheat crop as shown by the monthly report of the state board of agriculture issued today suffered another slump during the last month, the new estimate showing a decrease of 16,283 bushels as compared with the July report.

The new figures estimate the crop at 73,616,618 bushels.

MAKE GREAT DIAMOND HAUL

Loot in Los Angeles Is Placed At \$100,000

Los Angeles, Aug. 24.—Diamonds and other gems valued at \$100,000 were taken from two states belonging to a manufacturing jewelry company early today by the thieves who held up and bound a night watchman and blew open a safe.

GET LIBERTY BONDS

Kansas City, Aug. 24.—Twenty thousand dollars in liberty bonds were among the loot obtained by bandits who robbed a Missouri, Kansas and Texas train near Okem, Okla., Monday night it was announced by Postoffice Inspector Johnson here today.

Pay 10,000 Marks To Hear American

An admission of 10,000 marks was charged in Hamburg, Germany to hear Jacob Rothschilder of Bismarck, deputy field agent for the North Dakota department of Immigration and Russian Relief organization, deliver an address on opportunities offered farmers in North Dakota with which he showed motion pictures of farm life in the state, Aug. 1.

Mr. Rothschilder was escorted by the people of the state with a cargo of relief to Russia. While on the trip he was asked by the state department of immigration to show pictures of farm life in North Dakota.

FRANCIS HIGH PRICED VASE

London, Aug. 25.—Twenty-five thousand dollars was the price paid at auction in London recently for a Chinese vase of the Kangxi period, shaped as a beaker and standing 28 inches high. Several specimens of porcelain sold for more than \$5,000 each.

GOOD USED CARS

The following good used cars are either in our stock, or have been left with us for sale. Each one at its very low price offers a most attractive bargain, and if you are in the market for a car, you can hardly afford to let one of these bargains get away from you.

NORSE DISPUTE NORWAY'S TITLE TO GREENLAND

Brings Up Old Dispute After Many Years Silence

PLAN NEGOTIATIONS

Export Trade Only Little Over Million; Famous For Ice Bergs

Copenhagen, Aug. 25.—Denmark thought its title to Greenland was without blemish after the United States agreed to waive all claims to the Arctic island as part of the consideration in the purchase of the Danish West Indies. But the interest of Norway in the land which "Eric the Red" discovered has suddenly revived after centuries of inactivity. The controversy between the two Scandinavian countries over the ownership of the east coast of Greenland has become so acute that Denmark now has a commission, headed by former Minister Th. Zable, traveling over the Arctic island for the purpose of making a report upon which negotiations with Norway may be based.

Many Danes think Norway is opposing Denmark merely for the purpose of holding its claims upon Greenland as a club which can be used in forcing better terms out of Denmark in a new commercial treaty which is to be negotiated in the near future. The chief argument used by Norway is that its fisheries be affected adversely by recognizing Danish sovereignty over the eastern coast of Greenland.

There are only about 12,000 inhabitants in Greenland, and of these only about 300 are Europeans, mostly Danes. The island is chiefly famous as a leaping off place for explorers in search of the North Pole and as the source of icebergs which imperil shipping on the North Atlantic courses. Its trade is a monopoly of the Danish state, which enforces prohibition. The total import and export trade of Greenland is only slightly more than \$1,000,000 a year, and has declined since fish fish of various sorts are in less demand.

Norwegian claims upon Greenland date from the explorations of "Eric the Red" and Leif Ericsson in the eleventh century, when the latter of these intrepid Norsemen is supposed to have discovered the American mainland. In the fifteenth century Norway abandoned all communications with Greenland, and late in the eighteenth century Denmark began commercial relations with the island and established its colony there.

Denmark's colony before 1921 was only about the size of New York state, but the entire island over which it now is asserting its control is sixteen times larger. The season is short in summer than even the small amount of tillable land near the coast can produce only potatoes and other vegetables which do not require much heat.

REASONS FOR LOSING JOBS

Ninety Per Cent of Children Have No Sense of Responsibility

Chicago, Aug. 25.—Lack of a sense of responsibility, unwillingness to work hard, lack of thoroughness, false notions about salary and promotion, and lack of principle are the five chief reasons why 90 percent of the boys and girls of the United States lose their first jobs, according to a report made to the Chicago Association of Commerce by A. D. White, statistician of Swift and Company.

Mr. White's report noted that 90 percent of the boys and girls lose their first positions. The report also shows that in nine cases out of every ten, the loss of the position can be traced to one of the five reasons noted.

His report continues: "Lack of a sense of responsibility is shown by neglect of work, failure to put the most important things first, and the expression of a general 'I should worry' attitude."

"Unwillingness to work hard, is shown by being late to work, stretching the lunch hour, and stealing a few minutes at the end of the day, watching the clock, and wasting the time by social conversations and telephone calls during business hours."

"Lack of thoroughness, is indicated most frequently by unwillingness to begin at the bottom and to go through the drudgery of mastering each step before going ahead."

"The real secret of promotion lies in constantly doing more than you are paid to do. Keep yourself underpaid. As soon as you are overpaid you are bound to go backward."

"Lack of principle is shown by concealment of mistakes, untruthfulness, and the constant making of excuses."

FOXHOLM FARMER RAISES

TURKEY, HEN, HYBRIDS
Foxholm, N. D., Aug. 24.—Everette Kirkelle, two miles east of here, has a splendid flock of 200 White Leghorn chickens, besides 25 turkeys, hybrid of a turkey and chicken. The original turkeys were a cross between a White Holland turkey and a Rhode Island Red but the hybrid as raised on the Kirkelle farm is a further mixture of a turkey crossed with White Leghorns, which makes them one-fourth White Holland turkey, one-fourth Rhode Island Red and slightly larger than the White Leghorn.

MANDAN NEWS

As a result of trying to forge a check for \$24.50 at the Farmers' State Bank yesterday morning Peter Jahner, harvest hand, is in the Morton county jail pending a hearing on charges of forgery.

Jahner had previously cashed a forged check for \$12.50 at a certain grocery store. He had been employed by Joe Kottick and had signed Mr. Kottick's name to the check, but the signature did not resemble that of Mr. Kottick. The bankers detained him until a police could be located.

Sioux Indian Directs Mandan Municipal Band

Mandan has engaged David Blackhoop, a Sioux Indian, as leader of their 25-piece municipal band to succeed Joseph Bergheim who has resigned.

Mr. Blackhoop received his first inspiration to be a director of a band after hearing the Mandan municipal band play at a child. While attending school on the Standing Rock Indian reservation, he continued to gather all the information that he could in music and later when at

FLORIDA PLANS OVERSEA WAY

Plan Route of 125 Miles
Similar to Present Rail-way

Tallahassee, Fla., Aug. 25.—An "Overseas Highway" paralleling the "Overseas Railway" from the Key West to the Florida mainland, a distance of approximately 125 miles, is a possibility of the not distant future if plans of Key West civic leaders are carried out. They seek to supplement means of travel to and from the little city which was entirely cut off from the mother state until the Florida East Coast railroad was completed in 1912.

Plans already have progressed to the point of investigating the feasibility of the road, the committee that made the survey pronouncing the matter largely one of finances. A practical highway can be constructed over the distance over for bridges, the committee reported, for approximately \$1,500,000. Recommendation that ferries be used over the stretches of open water until funds are available for bridge building was made.

Unless outside aid is rendered, however, construction of the road may be completed only in sections, owing to Monroe county's ability to bond itself above \$500,000. A date early in September is being discussed as the time to vote on a bond issue to begin the work.

The state highway department, at its last quarterly meeting, voted to give the project its assistance to the extent of engineering advice.

MAN INJURED.
Grand Forks, Aug. 25.—Through the accidental charge of a shotgun, William Brown, of Manvel, is in a local hospital with a badly shattered knee. The accident occurred Monday noon, and Mrs. Brown was immediately brought to Grand Forks for medical attention.

Mr. Brown was carrying the loaded gun in his automobile, and as he alighted from the machine at his home the piece was accidentally discharged. The attending physician was uncertain as to the possibility of the leg having to be amputated.

SHOULDER INJURED.
Reynolds, N. D., Aug. 25.—Ed. Oatlie of this place suffered a painful injury to the shoulder when a car under which he was working slipped from two boxes which held it up, the weight of the machine pinning him to the ground. He was released by his father. No bones were broken.

EGYPT USES JAP TOBACCO
Tokio, Aug. 25.—Japanese tobacco of inferior quality is being sent from Japan to Egypt in increasing quantities, blended there, brought back as "Egyptian" cigarettes and sold by the Japanese tobacco monopoly at high prices.

In 1922, according to the Japan Economist, approximately 1,168,000 bales of this tobacco were thus treated and the amount will be exceeded this year.

REICHERT IN PETITION FOR BANKRUPTCY

(Continued from Page One)
tioned for a receivership and John Martin was appointed temporary receiver by Judge Cole. Later before the hearing on the petition to make the temporary receivership permanent an affidavit of prejudice was filed against Judge Cole, who sent the case to Judge Engert of Valley City. The latter dismissed the petition on the ground that they had been improperly brought. He said stockholders had no right to take such steps when they had other resources at law or in equity.

Subsequently several creditors of the company appeared before Judge Engert and asked for the appointment of a receiver. George Bastrup, formerly secretary of the company, was then appointed temporary receiver.

No Judge Named
Last Saturday was the day set to make permanent the last receivership and attorneys representing Altembernd intervened, filing a petition of prejudice against Engert. Engert decided that he did not care to sit further in the case as long as there was objection and therefore sent the record of the case to the supreme court pending the appointment of a new judge in the case.

No new judge had been appointed up to the time of the filing of the bankruptcy petition.

NOTICE

Drop In Gas Is Unreasonable Says Independent Dealer

Minot, N. D., Aug. 24.—While the margin of profit existing on gasoline previous to Aug. 14, when a drop in price was recorded in North Dakota, was unduly large, with the reversal of conditions now brought about it is doubtful if it is possible for the smaller oil companies to make a reasonable profit this year. Henry M. Wilson of Minot, an independent oil dealer, declares. The same sentiment is expressed by Mr. Wilson in a letter he has addressed to Governor R. A. Nestos.

"In my opinion a drop of five cents a gallon instead of 6.6 cents a gallon on the 14th would have been reasonable and would have permitted the independent dealers to operate and make a reasonable margin of profit," declared Mr. Wilson.

"Because of the immense resources of some of the larger companies it would be possible for them to operate at a loss for a considerable period, while the smaller companies would be forced out of business, which undoubtedly would be very much to the liking of the larger companies," said Mr. Wilson.

HUSBAND TAKES POISON AFTER FAMILY QUARREL.
Hillsboro, N. D., Aug. 25.—Draining the contents of a bottle of carbolic acid in the presence of his wife and others, John Hoppe, 30, committed suicide in front of the farm residence of his father-in-law, Fred Sommerfeldt, near Mayville.

Hoppe, whose home is at Crosby, Minn., became estranged from his wife some weeks ago. Mrs. Hoppe returned to her parents a few weeks ago and Hoppe followed and attempted a reconciliation, but failed.

The coronor pronounced the death a plain case of suicide.

KANSAS WHEAT CROP IS LESS

Topeka, Kan., Aug. 24.—The Kansas winter wheat crop as shown by the monthly report of the state board of agriculture issued today suffered another slump during the last month, the new estimate showing a decrease of 16,000 bushels as compared with the July report.

The new figures estimate the crop at 73,616,618 bushels.

MAKE GREAT DIAMOND HAUL

Loot in Los Angeles Is Placed At \$100,000

Los Angeles, Aug. 24.—Diamonds and other gems valued at \$100,000 were taken from two states belonging to a manufacturing jewelry company early today by the thieves who held up and bound a night watchman and blew open a safe.

GET LIBERTY BONDS
Kansas City, Aug. 24.—Twenty thousand dollars in liberty bonds were among the loot obtained by bandits who robbed a Missouri, Kansas and Texas train near Okesa, Okla., Monday night. It was announced by Postoffice Inspector Johnson here today.

Pay 10,000 Marks To Hear American

An admission of 10,000 marks was charged in Hamburg, Germany to hear Jacob Rothschild of Bismarck, deputy field agent for the North Dakota department of Immigration and Russian Relief organization, deliver an address on opportunities offered farmers in North Dakota with which he showed motion pictures of farm life in the state.

Mr. Rothschild was sent by the people of the state with a cargo of relief to Russia. While on the trip he was asked by the state department of immigration to show pictures of farm life in North Dakota.

FRANCIS HIGH PRICED VASE.
London, Aug. 25.—Twenty-five thousand dollars was the price paid at auction in London recently for a Chinese vase of the Kangxi period, shaped as a beaker and standing 29 inches high. Several specimens of porcelain sold for more than \$5,000 each.

NORSE DISPUTE NORWAY'S TITLE TO GREENLAND

Brings Up Old Dispute After Many Years Silence

PLAN NEGOTIATIONS

Export Trade Only Little Over Million; Famous For Ice Bergs

Copenhagen, Aug. 25.—Denmark thought its title to Greenland was without blemish after the United States agreed to waive all claims to the Arctic island as part of the consideration in the purchase of the Danish West Indies. But the interest of Norway in the land, which "Eric the Red" discovered has suddenly revived after centuries of inactivity. The controversy between the two Scandinavian countries over the ownership of the east coast of Greenland has become so acute that Denmark now has a commission, headed by former Minister Th. Zahle, traveling over the Arctic island for the purpose of making a report upon which negotiations with Norway may be based.

Many Danes think Norway is opposing Denmark merely for the purpose of holding its claims upon Greenland as a club which can be used in forcing better terms out of Denmark in a new commercial treaty which is to be negotiated in the near future. The chief argument used by Norway is that its fisheries be affected adversely by recognizing Danish sovereignty over the eastern coast of Greenland.

There are only about 12,000 inhabitants in Greenland, and of these only about 300 are Europeans, mostly Danes. The island is chiefly famous as a leaping off place for explorers in search of the North Pole and as the source of icebergs which imperil shipping on the North Atlantic courses. Its trade is a monopoly of the Danish state, which enforces prohibition. The total import and export trade of Greenland is only slightly more than \$1,000,000 a year, and has declined since fish fats of various sorts are in less demand.

Norwegian claims upon Greenland date from the explorations of "Eric the Red" and Leif Ericsson in the eleventh century, when the latter of these intrepid Norsemen is supposed to have discovered the American mainland. In the fifteenth century Norway abandoned all communications with Greenland, and late in the eighteenth century Denmark began commercial relations with the island and established its colony there.

Denmark's colony before 1921 was only about the size of New York state, but the entire island over which it now is asserting its control is sixteen times larger. The season is so short in summer than even the small amount of tillable land near the coast can produce only potatoes and other vegetables which do not require much heat.

REASONS FOR LOSING JOBS

Ninety Per Cent of Children Have No Sense of Responsibility

Chicago, Aug. 25.—Lack of a sense of responsibility, unwillingness to work hard, lack of thoroughness, false notions about salary and promotion, and lack of principle are the five chief reasons why 90 percent of the boys and girls of the United States lose their first jobs, according to a report made to the Chicago Association of Commerce by A. D. White, statistician of Swift and Company.

Mr. White's report noted that 90 percent of the boys and girls lose their first positions. The report also shows that in nine cases out of every ten, the loss of the position can be traced to one of the five reasons noted.

His report continues: "Lack of a sense of responsibility is shown by neglect of work, failure to put the most important things first, and the expression of a general 'I should worry' attitude."

"Unwillingness to work hard is shown by being late to work, stretching the lunch hour, and stealing a few minutes at the end of the day, watching the clock, and wasting the time by social conversations and telephone calls during business hours."

"Lack of thoroughness, is indicated most frequently by unwillingness to begin at the bottom, and to go through the drudgery of mastering each step before going ahead."

"The real secret of promotion lies in constantly doing more than you are paid to do. Keep yourself underpaid. As soon as you are overpaid you are bound to go backward."

"Lack of principle is shown by concealment of mistakes, untruthfulness, and the constant making of excuses."

FOXHOLM FARMER RAISES

TURKEY, HEN, HYBRIDS
Foxholm, N. D., Aug. 24.—Everette Kirkellie, two miles east of here, has a splendid flock of 200 White Leghorn chickens, besides 25 turkeys, hybrid of a turkey and chicken. The original turkeys were a cross between a White Holland turkey and a Rhode Island Red but the hybrid as raised on the Kirkellie farm is a further mixture of a turkey crossed with White Leghorns, which makes them one-fourth White Holland turkey, one fourth Rhode Island Red and slightly larger than the White Leghorn.

MANDAN NEWS

As a result of trying to forge a check for \$24.50 at the Farmers' State Bank yesterday morning Peter Jahner, harvest hand, is in the Morton county jail pending a hearing on charges of forgery.

Jahner had previously cashed a forged check for \$12.50 at a certain grocery store. He had been employed by Joe Kottick and had signed Mr. Kottick's name to the check, but the signature did not resemble that of Mr. Kottick. The bankers detained him until a police could be located.

Sioux Indian Directs Mandan Municipal Band

Mandan has engaged David Blackhoop, a Sioux Indian, leader of their 25-piece municipal band to succeed Joseph Bergheim who has resigned.

Mr. Blackhoop received his first inspiration to be a director of a band after hearing the Mandan municipal band play while a child. While attending school on the Standing Rock Indian reservation, he continued to gather all the information that he could in music and later when at

EXPECT 2,000 OR MORE HERE ON LABOR DAY

Joint Celebration Will Bring Union Men From All Over Missouri Slope

MANY PRIZES GIVEN

Business Men of Bismarck Make Donations For Many Contests of the Day

It is expected that between two and three thousand visitors will attend the Labor Day celebration in Bismarck, at the baseball park Sept. 3 when over \$300. will be given in prizes for many contests scheduled to make the day a big celebration.

Former Judge of the Supreme Court R. H. Grace will be the main speaker of the day. He will talk on "The Just Rights and Privileges of Labor."

The day will open with a big parade headed by the boys' band of St. Mary's Parochial school at 10:30 o'clock, and the sport events in which prizes of varying values will be given begin at noon. Refreshments will be served on the ground and the day's entertainments will be concluded with a street dance on the corner of Third and Main streets beginning at 9 o'clock. The McKenzie orchestra will furnish music for the occasion.

Bills are being posted throughout this vicinity and it is expected that visitors will flock to the city from Wilton, Mandan and other nearby towns. The Mandan and Wilton unions will join the Bismarck unions in the celebration, a special train being run from Wilton.

The program for the day includes a large number of races, races for the young and for the old, for the fat and for the lean, for the children and for the women. The various events and prizes follow:

Labor Day Committee Men's Race
1 Box cigars—Grand Pacific Billiard Parlor.

Participating in Parade by Unions
Best Float—2 boxes cigars—American Billiard Parlor, Stacy Fruit Co. Union Turning Out Highest Per Cent Members

2 boxes cigars—Sixth Street Billiard Parlor, Annex Billiard Parlor.

Most Popular Union Man on the Ground (Ladies to be the judges)
On box cigars—Gamble Robinson Fruit Co.

Boys' Race Under 5 Years
First Prize: Box Candy—Labor Day Committee.
Second Prize: Box Candy—Labor Day Committee.
Third Prize: Box Candy—Labor Day Committee.

Girls' Race Under 5 Years
First Prize: Box Candy—Labor Day Committee.
Second Prize: Box Candy—Labor Day Committee.
Third Prize: Box Candy—Labor Day Committee.

Boys' Race Under 8 Years
First Prize: \$1.00—Labor Day Committee.
Second Prize: .50—Labor Day Committee.
Third Prize: .25—Labor Day Committee.

Races For United Mine Workers—100 Yards
First Prize: \$10 credit on suit—National Tailors.
Second Prize: Gillette Razor—Sorenson Hardware Co.
Third Prize: Suit Case—Wellworth Store.

Girls' Race Under 8 Years
First Prize: \$1.00—Labor Day Committee.
Second Prize: .50—Labor Day Committee.
Third Prize: .25—Labor Day Committee.

Married Women's Shoe Race
First Prize: One Case Sheed Peaches—Richholt Grocery.
Second Prize: 5 lbs. Coffee—Bismarck Food Market.
Third Prize: 2 lbs. Coffee—John Dawson Grocery.

Girls' Race Under 12 Years
First Prize: Box Candy—Olympia Candy Co.
Second Prize: Crate Peaches—E. A. Dawson.
Third Prize: \$1.00—Labor Day Committee.

Fat Women's Race—175 pounds or over
First Prize: Scissor Set—Sorenson Hardware Co.
Second Prize: 1 Gallon Floor Varnish—H. H. Engen.
Third Prize: 5 lbs. Coffee—Brown & Jones.

Married Women's Three-Leaved Race
First Prize: 5 1/2 lbs. Coffee—E. A. Brown.
Second Prize: 10 lbs. Raisins—Central Meat Market.
Third Prize: 4 lbs. Coffee—Gussner's.

Tug of War Between Union Men of Bismarck and United Mine Workers (five men team)
5 Suppers at Annex Cafe.

Men's Shoe Race
First Prize: Men's Dressing Case—Black tone Billiard Parlor.
Second Prize: Silk Knit Tie—Alex Rosen & Bro.
Third Prize: One Can Cigars—J. W. Scott.

Married Couple's Race For Union Men in Bismarck Only
2 1/2 lbs. Coal—Washburn.

Women's Race
First Prize: 2 cans fruit—Elhard Grocery Co.
Third Prize: Basket Fruit—W. C. Cashman.

Boys' Race Under 16 Years
First Prize: 1 pr. shoes—Best & Huxley.
Second Prize: 500-22 cartridges—Otto Dirlam.

CHAIRMEN FOR N. D. AUTO CLUB DRIVE NAMED

Memberships Offered to Include 1924 in Organization Which Is State-Wide

TO URGE GOOD ROADS

Organization of the North Dakota Automobile Association in this territory has been started by O. N. Dunham, director of the state organization, and A. F. Bradley, secretary of the Association of Commerce. They traveled 188 miles yesterday and today had completed naming of local chairmen in many towns.

Bismarck will have a branch bureau of the state association, and the territory assigned to Bismarck includes McLean, Kidder, Burleigh, Emmons and McIntosh counties. Local chairmen already named include: Washburn, Karl Klein; Wilton, G. W. Stewart; Began, A. L. Gurness; Wing, H. C. Edgerton; Arena, A. C. Isaminger; Tuttle, Jacob Krenn; Steele, L. Snodgrass; Dickinson, H. A. Knudson; Sterling, H. E. Wilfang.

The bureau plans to place adequate road signs in the state, to main a theft bureau at Fargo, to secure and maintain good roads, to be affiliated with 617 member clubs of the American Automobile Association which offers members, upon presentation of cards, reciprocal courtesy, and each member will be entitled to an emblem to be placed on the radiator of his car.

The membership fee is \$2.50, which, if taken out in the near future, continues for 1924 also.

An announcement of President C. E. Danielson of Minot on the subject of the association and good roads says:

"North Dakota should have about 100,000 miles of roads. Of this mileage the Federal government would supervise the construction of 7 percent, which would mean that North Dakota would have 7,000 miles of Federal highways in the state. Over \$1,000,000 is available to North Dakota for road construction every year from the Federal government, if the state puts up a like amount. Why not meet the amount with auto mobile license money? It is part of the program of the Automobile Association to secure such legislation. North Dakota has spent millions of dollars in road construction, but it has been just during the last few years that we have built permanent roads, in spots. Let us adopt a system."

New Clutch Pedal Easily Manipulated

There is one improvement in Dodge Bros. motor cars which prospects pass over without much comment when it is being explained to them, but which they all speak of with real enthusiasm after they have driven the car according to M. E. Gilman, local Dodge Brothers dealer. This is the remarkable ease with which the clutch lever is now controlled, due to a change in leverage between the foot pedal and clutch proper.

"Not having had to exert themselves unduly in manipulating the clutch pedal on Dodge Brothers cars of past years, owners and visitors do not seem greatly excited over this apparently unimportant change," said the dealer. "However, once they get in traffic and find how easy it is to let the clutch in and out, without tiring the foot in the least, they understand and appreciate what has been done. This is particularly true of ladies, to whom a stiff pedal is a source of much annoyance. There are dozens of similar minor improvements, in addition to the major refinements with which nearly every one is now familiar."

VALUES LIFT EARLY TODAY

Upturn in Liverpool Quotations Influences Chicago Mart

Chicago, Aug. 25.—An upturn in Liverpool quotations attributed to the sharp advance in American markets yesterday had a tendency to lift values here today during the early dealings. Reports that the Australian wheat yield may be seriously impaired because of the excessive rains in the past three months following a long period of drought also had a bullish effect. Opening prices which were one-half cent lower to 4 cents higher with December \$1.06 1/2 to \$1.07 and May \$1.11 1/2 to \$1.12 were followed by a slight advance all around.

Increased offerings served to check the advance during the late dealings. The finish showed gains varying from 1/4 to 3/4 cents with December \$1.07 to \$1.07 1/2 and May \$1.12 to \$1.12 1/2.

LAST TEST FLIGHT ENDED

Pilot Finishes Just Few Minutes Behind Record

(By the Associated Press.)
Hempstead, N. Y., Aug. 25.—The last east-bound flight in the present trans-continental relay mail test was completed at 11:17 o'clock eastern time today when Pilot C. H. Ames arrived from Cleveland. The entire distance from San Francisco to New York was covered in 24 hours and 17 minutes, three minutes behind the record established yesterday.

JENSEN ADMITS STRIKING BLOW

Baraboo, Wis., Aug. 25.—Alvin L. Jensen, held by Sauk county authorities with Jack Galloway on a charge of murder in connection with the death of Robert Jaeger, Black Hawk recluse, confessed this morning that he struck the blows which caused Jaeger's death, according to authorities.

ELECT RUGBY MAN HEAD STATE BAR

Devis Lake, Aug. 25.—L. E. Neftal of Rugby was elected president of the North Dakota Bar association at the closing sessions of the two-day convention here yesterday. A. W. Cuper of Fargo was elected vice president and R. L. Wenzel of Grand Forks was named secretary-treasurer. About 65 attended the convention, of whom 50 expect to attend the national convention of the American Bar association to be held in Minneapolis August 29.

The convention adopted a state code of ethics after amending the original code several times. A banquet last night ended the convention.

GOMPERS HITS AT INJUNCTION

Chicago, Aug. 25.—Samuel Gompers, president of the American Federation of Labor, who recently declared a federal injunction issued here against union organizers to become members was an invasion of constitutional rights and a further declaration that judges issuing such an injunction should be impeached, today named a committee of 15 labor leaders "to investigate uses and abuses of the injunction."

One of the newer-street dresses has a single deep cuff serving as a muff. It matches the fur which forms the high Russian collar.

HUGHES GOES TO MINNEAPOLIS

Washington, Aug. 25.—Secretary Hughes will leave Washington tomorrow for Minneapolis and will not return to the state department until September 5. He will address the American Bar Association in Minneapolis and then will go to New York and Montreal, Canada.

BAKER WILL AID WILSON

New York, Aug. 25.—Newton B. Baker, former secretary of war under President Woodrow Wilson, announced today before sailing on the Homeric to enter his daughter in school at Lausanne that he would go before the next Democratic convention and advocate the League of Nations and the World Court, two measures dear to the heart of his former chief.

The use of pin stripes is an interesting feature of many of the early tailor makes.

PILOT WINS DEATH RACE

Jack Knight Flies From Cheyenne to Michigan

Buchanan, Mich., Aug. 25.—Jack Knight, veteran air mail pilot, flying through the night, won a race against an unseen competitor—death—when he landed here about 7:30 o'clock this morning, in what is believed to be the longest single night flight in the history of aviation.

Racing from Cheyenne, Wyo., nearly 1,000 miles from here, Knight reached home in time to find his aged father, Dr. M. M. Knight, alive.

Handed a telegram last night informing him that his father was seriously ill, mail officials gave Knight permission to make the flight in a postoffice plane and he hopped off at 8:02 p. m. mountain time. Knight landed here in a field, the nearest one to his father's house, he said, and hurried to the house.

His father, who has practiced medicine here for many years, suffered a relapse yesterday.

STRESEMANN IS ENDORSED

German Newspapers Approve Policy of Chancellor

Berlin, Aug. 25.—Approval of Chancellor Stresemann's latest stand on the reparations issue is voiced today by newspapers of all parties. The newspapers laid stress on the manner in which the Chancellor rejected any compromise over Germany's sovereignty over the Ruhr and Rhineland.

(By the Associated Press.)
Paris, Aug. 25.—Chancellor Stresemann's address in Berlin yesterday in which he renewed his predecessor's pledge necessary to reparations has added to the feeling held here over the whole situation. Although the newspaper regret that Stresemann made the same remarks that Cuno had made they said the general tones of his remarks showed a change for the better.

La Petit Parisien says: "The chancellor does not think it necessary to pronounce imprecations against France. He speaks like a man prepared to talk business and

he has the good sense to advise his compatriots not to count on inter-allied dissension to pull Germany out of her present difficulties."

FAIL TO SELL CERTIFICATES

None of the townships of Burleigh county which have advertised certificates of indebtedness, the new form of debenture created under the law of 1922 legislature, received bids when they were offered for sale, according to County Auditor Frank Johnson. Under the law the townships will continue to issue warrants. Burleigh county has advertised certificates of indebtedness for sale, September 4.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

WHY THINK IN TERMS OF WHEAT?

Through page advertisements in the eastern newspapers, the Curtis Publishing company is doing a real service in dispelling some of the manufactured gloom of the perennial pessimists. Under the caption "For Business Men and Bankers to Think About" is the following very timely statement:

"How far should talk about wheat, mostly based on impression instead of fact, be allowed to influence opinion regarding the prosperity of the country at this time?"

"While realizing the existing condition of the exclusive wheat farmers of the great plain states, we find many reassuring facts in the wheat situation at the present time.

"The break in wheat price was based on July estimate of probable harvest. Since then the Canadian crop has deteriorated and promises a greatly reduced yield.

"Kansas, the leading wheat state, has a big corn crop in prospect, and will greatly reduce its wheat acreage this fall. This means a better price for wheat carried over to next season.

"The spring wheat states have a larger acreage in corn this year. Minnesota's big crop this season is not wheat but corn.

"Viewing agriculture as a whole, wheat is not the vital factor it once was when you consider—

"That wheat represents only about 6% of the total value of farm products.

"That relatively few farmers depend solely upon wheat for their yearly income.

"That perhaps half the wheat consumed in this country is bought by farmers themselves in form of flour, bran, millfeed, etc.

"Then all this talk about our prosperity being dependent upon the price of wheat sounds ridiculous.

"According to the July 1 estimate of the United States Department of Agriculture, the 1923 crop of wheat was worth \$61,515,000 less than the same quantity was worth on July 1, 1922. That doesn't look so good.

"Yet against this decline, corn, on the same basis, will develop \$699,111,000 more than last year.

"Force of habit seems to have kept wheat as a sentimental index, for today, it represents only about half the value of corn; while hogs, cattle, dairy products, poultry products—each has risen to more than equal the value of the wheat crop; and the fruit crop is practically equal.

"Obviously, wheat as a controlling factor has diminished. Once Maine elections were the keynote of national politics. Wheat was the keynote of prosperity. That was before the center of population moved to Indiana. That was the time when all farmers were growing some wheat, and all were affected by both the abundance of the crop and the sales price.

"Times have changed!

"Give wheat its rightful place—6% of the whole—but don't let it assume undue importance.

"Fundamentally, the country, from every standpoint so far as we can see, is sound; practically sound when judged by the natural creation of wealth as it comes from the soil."

More of this attitude toward the future is what business needs—less of the business craze hanger found too often in high financial circles seeking by ill digested statistics and gloomy predictions to paralyze the normal processes of business often for his own selfish ends.

Wheat of course is no longer the barometer in the Slope country any more than in other sections where corn, dairy and other farm products are fast supplanting the one crop idea.

AUTOMOBILE PARKING

A plan will be presented to the City Commission for city parking of automobiles. The situation on Fourth and a portion of Main is becoming a menace to safety. With the street car and the present system of parking there is no room for traffic to move. Parallel parking is the only solution.

On the other streets where there are no car tracks it must be decided by the city commission whether center or angle parking is the most advisable. If the angle parking is retained on other than Fourth and a portion of Main street, cars should not be parked at any greater angle than 45 degrees and spaces should be painted off at intervals so as to insure proper parking.

If the city commission sees fit to establish such a system, it will take special vigilance on the part of the police for a few weeks to see that the rules and regulations are strictly enforced. Marking out the paths for pedestrians to avoid jay walking is a proper step now in the development of Bismarck.

In the busiest sections the use of mushroom guides at street intersections are safer and more sightly than the present antiquated silent policemen.

Doubtless the city commission will give the recommendations of the Association of Commerce earnest consideration.

HOW ABOUT PRICES?

How about prices? Wall Street Journal prints an article with this headline: "Wheat and cotton prices off 30 per cent, rubber 27 per cent, from March."

It lists other articles, showing a price drop of 20 per cent on the average—a fifth. Wholesale prices, of course, but retail prices eventually will respond to them.

A basic natural law: "What goes up, must come down."

As true of prices as of water thrown in air by jesting lads.

Even if our imports exceed exports during the present fiscal year (to end June 30, 1924), it probably will not kill us.

Wall Street Journal comments that in the 48 years since 1875 there were but three occasions in which exports failed to exceed imports. It would be a queer tide that didn't turn out more than three times in a half century. Nature balances.

Editorial Review

HARD ON THE PESSIMISTS

Some of our weeping philosophers, just returned from Europe, are having experiences like that of Dr. Johnson's old college friend. He told the doctor that he had often tried hard to be philosophical, but that somehow "cheerfulness always broke through." Certainly a great many cheerful dispatches from Europe break through, almost before our despondent travelers have finished unpacking their trunks of gloom. In the first place, the crops are nearly everywhere reported to be unusually good. France will grow more wheat this year than ever before in her history. The agricultural news from Poland and Rumania and Bulgaria, also from Hungary and the other secession states, is good. The outlook for the harvest in Russia and also in Germany is reported excellent. It is evident, therefore, that the great majority of the people in Europe are now freed from the specter of starvation. They have gone to work on the soil, the great source of the production of wealth, and are surely going to have enough to eat this coming winter. That fact cannot fail to be of great political significance. There will not be mobs of hungry men threatening a revolution.

Many other reports reach America about as soon as our discouraged voyagers. All of a sort to discredit their prophecies of dire and instant ruin in Europe. The facts quickly catch up with the theories and leave them a good deal shattered. Last week, for example, we were told that France had finally thrown aside her mask. She stood revealed as the great imperialistic and military power, resolved to break with England and to keep her iron heel on the breast of prostrate Germany, while proceeding to execute her plan to dominate the whole of the Continent. But in only a few days a great change visibly came over the spirit of this horrifying dream. The French Prime Minister declares that France would consider it "criminal" to do anything to weaken the Entente with England. Moreover, communications are proceeding between Germany and France looking to a settlement; the great industrialists of the two countries being notably active in trying to bring about a compromise. As for England and France, far from having reached that definite rupture over which so many pessimists were gloating, they are still negotiating and the belief in both countries is that the next step will be a general conference of all the Allied Prime Ministers in the hope of working out a plan of adjustment agreeable to them all.

Turning to conditions at home, our American revelers in gloom find their comforts being taken away from them one after another. The prospect of being able to avert a strike in the hard coal mines is brighter than for several weeks past. As regards the general status of business and employment, official reports of the Department of Labor and surveys by trade associations indicate, in the words of Director Jones of the Employment Service, "a healthy and detentive and a splendid spirit of optimism practically throughout the entire industrial field." Even the maligned railroads are making high records for efficiency. The number of freight trains during the first six months of the present year show the largest volume for any similar period in our history, being 7 per cent greater than the previous top figures set in the first half of 1920.

All these signs of promise are, of course, consistent with the existence of many danger points both in international affairs and domestic conditions. It is no time to settle down into a complacent but blind optimism. Business men and statesmen alike need to be on their guard against perilous tendencies. But, on the other hand, there is no justification for the fears and cries of alarm raised by so many. When they foretell new wars worse than the worst ever known before, and picture civilization about to be pushed into the abyss, they are open to reproach for not taking into account all the facts—especially the most weighty ones. Merely a few of these have been indicated above, yet any one not irretrievably committed to despair must see that they imply a world not given over wholly to the civil one and still quite livable for the vast majority of mankind.—New York Times.

IDLE TONNAGE DIMINISHES

London, Aug. 25.—Tonnage laid up in the principal ports of the country on July 1 totalled 709,102 tons net, compared with 546,555 tons on April 1, and 732,198 tons on January 1, according to figures compiled by the statistical department of the Chamber of Shipping. A year ago more than one million tons were idle.

A Thought

For a small moment have I forsaken thee; but with great mercies will I gather thee. In a little wrath I hid my face from thee for a moment; but with everlasting kindness will I have mercy on thee.—Isa. 54:7, 8.

As freely as the firmament embraces the world, or the sun pours forth impartially his beams, so mercy must encircle both friend and foe.—Schiller.

ATTENDANCE INCREASED

Jamestown, Aug. 25.—A thirty per cent increase in attendance is expected at Jamestown College this fall, according to a forecast made by William B. Thomas, registrar. This embraces an estimated enrollment of 435 as compared with 335 last year. Last year there were 134 men students and 201 women students at the college. Mr. Thomas estimates this year are for 175 men and 280 women students.

BOYHOOD HEROES

THE SNAKE CHARMER.

LETTER FROM ALICE HAMILTON TO HER SISTER, LESLIE PRESCOTT

Although I do not know whether you will be able to read this letter or not, I am going to write to you. I hope mother has told you before that I knew nothing of your accident and subsequent illness. I certainly would have been terrified about you had she told me.

Even since Karl has been here and explained that you were better, and since I received mother's cablegram that I am a really truly auntie, I still have moments when I almost get a kind of nausea, I am so worried for fear there can still something happen to you.

It was awfully sweet of you, dear, to think of sending me the pearl beads. Karl told me that he was the one who put the kibosh on your sending them over. Mean of him, wasn't it? Still, I'll forgive him because he has been so perfectly wonderful to me since he came.

Betty Stokley's book is languishing. I'm not sure but I shall have to finish it yet. I think she has fallen in love with an Englishman, one of those chaps with no sense of humor who even rather marry him than a man like that.

He said he was thankful to think that I placed him in that somewhat ambiguous category. Leslie, you won't mind if I tell you, will you, that I really believe he is getting over loving you? Just after you were married he used to talk about you all the time and nowadays he lets me talk about myself, which, of course, is very agreeable to me.

Are you very happy, dear? Somehow I've thought a lot about you and your marriage lately. It seems as though it was such a disappointing thing that you have just gone through with. I think you would have to love a man a lot to bear him children.

I told that to Karl the other night, but he seemed to think that a woman would have to love a man a lot to even live with him. He said, "Do you know, Alice, it isn't so hard to do one brave or one daring act. It is the constant monotony and martyrdom of every day life, the little differences, the little tricks and selfish habits that mar the happiness of married people."

Isn't Karl an analyst? Sometimes I just hold my breath when he says something to me that I know is as true as what I have just quoted to you. I never will understand why you did not fall in love with Karl, but I am especially sure any one could see that your John Alden Prescott has not half the brains nor a quarter of the heart which Karl has.

Kiss the Blessed Bech for me right on the top of his little bald head. I'll write you soon again, dear.

Love, ALICE.

Degoutte still leads the French in the Ruhr. German business is suffering from De-goutte.

Motorless aviation congress is going on near Cherbourg. Watch first page for killed and injured.

Robert Bliss, new American minister, has arrived in Stockholm, but ignorance is not Bliss.

Farmers will make the best soldiers next time. More accustomed to looking up at airplanes.

It's safe to take off your heavy underwear.

She shook her head and there was a wistful look in her eyes.

"It passes so quickly when you are here—and so slowly when you're away from these wretched expeditions. Come back soon, Peter dearest; promise me you'll come back soon."

And Peter Pennington promised. "Evening, Van Daulen!"

The Dutchman started, almost falling.

He wore suits with wide stripes sometimes, suits with big dots other times and suits like checkerboards in between times.

He wore eye-glasses and carried a cane and looked quite as gorgeous as King Snookums himself, although he didn't wear a crown on his head but a high silk hat instead.

And I'm sorry to say that some of the other Pee Wee Landers made fun of him behind his back—the boys most of all. Winky Wank and Davy Dumpy and Dinky Doodle and Tiny Mite and Georgie Porgie and the whole crowd behaved something awful whenever he was around.

They should have been ashamed of themselves, for although Mister Daffy Dilly was a bit odd about his clothes he had a heart as big as a watermelon almost and liked every-

body. And his manners were simply fine.

One day there was a ball game in Pee Wee Land. And everybody was there to see how it would come out. Daffy Dilly was there, too, right in the front row.

First thing you know, the ball came along and—knocked Mister Daffy's hat off. But he acted as if he didn't care a bit and picked it up all mashed and everything and put it on again.

"That's all right," he said pleasantly. "I don't mind."

Pretty soon the ball came along and knocked his cane out of his hand.

"That's all right," he declared, picking it up as nice as pie.

Pretty soon the ball came along all covered with mud and splashed

THE YELLOW SEVEN:
The Wisdom of
Rabat-Pilai

NEA Service, Inc. 1923

By Edmund Snel,

BEGIN HERE TODAY

Captain John Hewitt is Commissioner of Police at Jesselton, British North Borneo. His sister, Monica Viney, is engaged to marry Peter Pennington, who is detailed by the government to apprehend Chai-Hung, leader of The Yellow Seven, a gang of Chinese bandits. Van Daulen tries to Jesselton with the news of the murder of Domberg, the Dutch Manager at Kasih-ayter. Rabat-Pilai, chief-of-staff to Pennington, hates Chai-Hung bitterly.

NOW GO ON WITH THE STORY

Van Daulen turned to the Commissioner.

"Captain Hewitt, I must appeal to you. I've come a long distance to night to inform you of the seriousness of the position in our territory, not to answer absurd questions."

"Sorry! I thought you two had possibly met before. Van Daulen, this is Pennington. He's responsible for any action taken against Chai-Hung and consequently entitled to ask what questions he chooses. Have you fixed up a room anywhere?"

"I expect there's room for me at the Rest-House, thanks."

"Well, drop in any time after ten tomorrow and we'll talk things over. I'm sorry about poor Domberg. Good night."

He was barely out of earshot when Hewitt swung round on Pennington. "Rather a blow to your theory, what?"

"Not in the least!"

"You'll never admit when you're wrong," persisted the Commissioner sadly.

"And you'll never admit when I'm right. By the way, keep young Van Daulen in Jesselton as long as you can. I shall be running up to Kasih-ayter tomorrow."

Hewitt drained his glass and made off down the passageway to his room. "I'll do my best," he shouted back over his shoulder, "but Van Daulen's inclined to be impetuous."

"Peter," Monica demanded when they were alone, "why do you go out of your way to quarrel?"

"I don't."

"But you do, dear. The way you tackled that poor fellow, who'd ridden goodness knows how many miles, made me feel positively uncomfortable. He was dead beat, you know."

"I wonder who discovered the fine meal sent in to the pen-house? I decided it had been smeared with poison."

"You haven't been listening. I don't believe you heard a word I said."

He drew her to him.

"Don't mind. I've been listening most patiently, but you see it's utterly impossible for you to understand my motives. I'm a queer, jumbled-up piece of machinery, sometimes actuated by reason, sometimes by a sort of sixth sense which Nature gave to me when she sent me to the pen-house."

"That's why I'm here now, it's exactly why your brother sent for me, and it's why I sometimes talk as I do. I'm not like that with you."

"I should hope not indeed!"

"Nor with Jack or Dawson—or even that primitive creature, Rabat-Pilai. Do you remember what I was saying before Van Daulen came in? Somebody at Kasih-ayter in league with Chai-Hung—and I've got to put my finger on him and keep it there. It might be Vance, Whittaker, their chin, waterman, their family apothecary; it might, on the other hand, be Van Daulen. I jumped on him right away when, as you say, he was dead-beat. Why? Because at such a time he was less likely to be on his guard."

"But," she said, "he was less likely to be on his guard."

"Except," said Pennington dreamily, "that when he stooped to put that pot of yellow paint away a corner of his tunic dipped into it."

Monica's brain reeled.

"He came away without bothering to change. Perhaps you didn't notice, but the bottom corners of his coat curled—and the bulk of the stain was on the under side."

"It's still purely conjecture. He might have gone right up to the sign to examine the pen-house and jacket against it."

Pennington smiled.

"He might—if he'd troubled to inspect it with a ladder. The yellow Seven, if you remember, was painted on the side of Domberg's house—and Domberg's bungalow is built on piles ten feet or more above the ground."

She caught both sides of his coat and forced him to look at her.

"Do be careful, Peter for my sake."

He ran his fingers caressingly through her curls.

"There's no need to be anxious," he said, "for I shan't want to be so very alone. Rabat-Pilai will be hovering in the shadows. Holy Moses! have you the remotest idea what the time is?"

She shook her head and there was a wistful look in her eyes.

"It passes so quickly when you are here—and so slowly when you're away from these wretched expeditions. Come back soon, Peter dearest; promise me you'll come back soon."

And Peter Pennington promised. "Evening, Van Daulen!"

The Dutchman started, almost falling.

He wore suits with wide stripes sometimes, suits with big dots other times and suits like checkerboards in between times.

He wore eye-glasses and carried a cane and looked quite as gorgeous as King Snookums himself, although he didn't wear a crown on his head but a high silk hat instead.

And I'm sorry to say that some of the other Pee Wee Landers made fun of him behind his back—the boys most of all. Winky Wank and Davy Dumpy and Dinky Doodle and Tiny Mite and Georgie Porgie and the whole crowd behaved something awful whenever he was around.

They should have been ashamed of themselves, for although Mister Daffy Dilly was a bit odd about his clothes he had a heart as big as a watermelon almost and liked every-

body. And his manners were simply fine.

One day there was a ball game in Pee Wee Land. And everybody was there to see how it would come out. Daffy Dilly was there, too, right in the front row.

First thing you know, the ball came along and—knocked Mister Daffy's hat off. But he acted as if he didn't care a bit and picked it up all mashed and everything and put it on again.

"That's all right," he said pleasantly. "I don't mind."

Pretty soon the ball came along and knocked his cane out of his hand.

"That's all right," he declared, picking it up as nice as pie.

Pretty soon the ball came along all covered with mud and splashed

ing back down the steps of his own veranda. Curled in a chair, a cigarette between his lips and a half-filled tumbler resting in the cavity in the arm, lay Chinese Pennington.

"Oh! good evening! Thought I'd left you behind in Jesselton."

He blundered past Pennington, found a seat and began unlacing his boots.

"You intend stopping here?"

"If I may."

"Certainly—delighted, of course. No need to offer you a drink, I see!"

Two diagonal slits were all that was visible of the Englishman's eyes. "No thanks. I brought my own!"

Van Daulen paused with one boot half drawn off—and stared hard at his guest.

"You—brought—your—own—whisky?"

The Dutchman choked something back in his throat and discarded the boot. He was evidently ill at ease for, while endeavoring to operate the second pair of laces, he got them hopelessly knotted.

Social and Personal

World War Nurse Is Honor Guest At Hawaiian Party

Mrs. J. C. Beck and her sister, Miss Minnie Freise entertained last evening at a Hawaiian party honoring Miss Lillian Frankhauser, R. N., who has been engaged in nursing in Hawaii for the past two years, at the home of Mrs. Beck.

The party was in the nature of a handkerchief shower, since Miss Frankhauser returns to Honolulu the first part of September to be married to a naval officer. The twelve guests were nurses from the Bismarck hospital, being members of the classes of '10, '11, '12, '13, '14 and '16. The young women spent the evening in renewing acquaintances. Miss Frankhauser has served in Hawaii as a nurse for the past two years, spent eighteen months during the World War in Europe as a nurse, receiving three citations for bravery for performing her work from General Pershing, President Poincare of France, and was chosen as one of nine nurses to be placed in charge of one of the American hospitals at Coblenz, Germany at the close of the war.

Before serving the four course luncheon at 11 o'clock the honor guest was presented with a large basket, charmingly decorated with Hawaiian colors, filled with beautiful handkerchiefs. Miss Freise made the presentation.

Decorations in the dining room were in the popular gold and brown colors of the island provinces of the United States. Unique favors were given the guests in the shape of Hoola, Hoola girls with their yellow dancing skirts and jackets and ornamental neck pieces. Hawaiian music was played during the luncheon. Mrs. Susie Peterson Wallace of Missoula, Mont., who is visiting with her sister, Mrs. B. D. Wetmore here was an out of town guest.

Miss Frankhauser left this morning for Lodi, Calif., to visit with her parents before sailing for Honolulu.

Sells House.

John Beattie of Mandan, has sold the residence he owned on West Thayer street, Bismarck, to A. S. Erickson, of the farm loan department of the Bank of North Dakota. Possession will be given about October 1. The deal was made through the Hedden Real Estate Agency.

Enters Eastern University

Rev. Geo. B. Newcomb, Superintendent of the Humane Society for the Friendless and son William W. Newcomb will leave on number four tonight for Rochester, N. Y., where William will enter the University of Rochester, matriculating in the Arts course. The Young Peoples' society of the Baptist church recently gave him a surprise party in honor of his going.

While at college he will make his home with his uncle, Dr. Harvey H. Newcomb.

Superintendent Newcomb will visit with his brother Dr. Harvey H. Newcomb in Rochester and later together to Boston and other points. While in Boston Mr. Newcomb will be in attendance on the American Prison Congress as an official delegate. He will also do some research work while East in the field of child welfare especially as to delinquency and child placing.

RETURN FROM VACATION

Mr. and Mrs. C. B. Nupen have returned from Clear Lake, S. D., where they have been enjoying a vacation. They were joined at Venu, S. D., by their daughter, Miss Victoria and at Cogswell, S. D., by their son, Norman who have been spending the summer with relatives in those places.

Install New Equipment

In addition to the X-Ray Department, of the St. Alexius Hospital they have just installed one of the latest Stabilized Mobile X-Ray Bedside Units, which will enable them take X-Ray pictures in the rooms of those patients who are unable to be moved to the X-Ray Department.

Wednesday 8 p. m.—Service of Praise and Prayer.

CHURCH TO BE REBUILT

Fargo, Aug. 25.—Reports from Epion township say that the Hegland church which burned there last Monday will be rebuilt in the near future.

The building was struck by lightning Monday afternoon at 4 o'clock, but all the furniture, and valuables, and half of the windows were successfully removed by neighboring farmers before they were damaged.

It is said that the steeple burned for over an hour before the fire reached the roof. Only the concrete block shell remains.

Rev. E. L. Tungeth is the pastor.

Evangelical Church

Church, corner Seventh and Rosser Sts., C. F. Strutz, pastor.

German services from 9:30 to 10:30 a. m. All other services are conducted in the English languages.

Bible school at 10:30 a. m. Interesting classes and good teachers. This will be followed by an address by the pastor.

Evangelical League of C. E. at 7:15 p. m. Miss Martha E. Fabst will discuss "Lessons in the School of Prayer." All members and friends of the league are invited.

Evening sermon, continuing the discussion of the general theme, "The Soul and Its Destiny," at 8:00 o'clock. Special music. A cordial welcome to all.

Tuesday evening at 8 o'clock, prayer service and bible study.

Trinity English Lutheran Church Cor. Ave. C and 7th St. Services Sunday morning and evening.

Morning topic: "Pharisaic Righteousness."

Evening: "The Moral Law."

The latter topic will serve as an introduction to a series of evening sermons on the catechism, beginning with the ten commandments.

Monday evening all voting members are requested to be present in the church at a business meeting commencing 8 o'clock.

Come and join us! I. G. MONSON, Pastor.

Christian Science Society

Corner 4th St. and Ave. C. Sunday service at 11:00 a. m. Subject: "Mind."

Sunday school at 9:45 a. m. Wednesday evening testimony meeting at 8 o'clock.

A reading room is open in the church building every Tuesday, Thursday and Saturday, except legal holidays, from 2 to 4 p. m.

All are welcome to attend these services and to visit the reading room.

INCOMES SINK IN NO. DAKOTA

The total of individual net incomes in North Dakota, coming under the federal income tax in 1921, sank to \$43,082,763, according to figures just made public by the federal internal revenue headquarters of the state in Fargo. The records are for the calendar year.

This is the smallest total income taxed in the state since the law became effective in its present form in 1917, according to the records.

It is a 35 percent decrease from 1920.

The total number of incomes reported in 1921 for the state dropped from 18,440 in 1921 to 24,209 in 1920, a decrease of 24 percent.

The total reported income for the same year showed a falling off of 17.52 percent in total income and a decrease of 8.23 percent in number of incomes filed.

The following short tables give comparisons between the state and the United States as a whole and

Local Women Conduct Rest Room at Fair

Members of the Bismarck W. C. T. U. will have charge of a rest room in Mandan during the Missouri Slope Fair. Committees of ladies will have charge each day of the rest room which will be centrally located on the fair ground.

In connection with its Dr. Louis Boutelle of the United States Health Department, and her assistant, Miss Olson, nurse, will conduct a free clinic for children. This is the first time in the history of a fair that a child welfare clinic has been operated in connection with it. During the past fair season Dr. Boutelle has held clinics at various fairs in the state.

Last year the Bismarck women of the W. C. T. U. conducted the rest room for the first time. It proved so successful at that time that they have repeated their work this year.

N. D. Girl To Be Soloist With Sousa

Minot, Aug. 25.—Miss Nora Fauchald of this city, has just closed a contract for an engagement this season as soprano soloist with Sousa's band. Miss Fauchald will join the organization in New York City within a few days and will leave early in the fall on a tour of the United States.

Winnipeg, Man., Aug. 25.—W. J. Roberts, recently of Oakes, N. D. holds the record for the number of members of one family entering Canada by automobile. He arrived at the border with his wife, eight sons, two daughters and a nephew, all 13 seated in an automobile with trailer, carrying cooking utensils and everything required enroute. They are going into the Edmonton district to take up a homestead. Two of the children are twins and 13 was their lucky number, as all were healthy in appearance and in a cheerful mood.

TURKEYS WILL BE PLENTIFUL

Fargo, N. D., Aug. 24.—"An abundance of turkeys are assured for the 1923 Thanksgiving and Christmas dinners," said O. A. Barton, poultry expert at the North Dakota Agricultural college today. "There is a large crop of young turkeys throughout the state of North Dakota, but there still remains the problem of getting them into good condition for the market. Prospects look for at least reasonable if not excellent prices."

Mr. Barton has been communicating with several eastern poultry commission firms and expects to be able to efficiently market all of the North Dakota surplus at eastern market centers.

"While traveling through Grand Forks county this week," he continued, "I noticed a great improvement through better methods of caring for the flocks. If the turkeys are given sufficient feed and care between now and marketing, they will be a valuable addition to the farm revenue."

BAND HAS LAST PRACTICE; REGISTER

BAND—SOC.

Bismarck's juvenile band held its last practice for the summer season today. The children will begin work again Sept. 5 when classes will be held three times a week, Monday, Wednesday, and Friday at 7 o'clock at Will's school. Members of this group which number about 50 children, will be known as the advanced class.

Next week registration of those who wish to begin the study of the band music will be conducted at the Association of Commerce rooms. L. C. Sparlin, director of the band, will be at the Association of Commerce rooms for consultation with children and their parents in regard to band instruments and the course of study from 2 to 3:30 o'clock each afternoon.

Succumbs After Long Illness

C. G. Wachman of Elgin, 24, died at a local hospital yesterday afternoon at 4 o'clock after a protracted illness due to Bright's disease. Mr. Wachman had been in the hospital for several weeks. Mrs. Wachman who had been attending her husband was taken to the hospital yesterday for treatment.

BUMPER FLAX CROP

Minot, Aug. 25.—Wheat will average at least 10 bushels an acre in the Tagus vicinity, in the opinion of Ira D. Bush of that city. The flax crop promises to be a bumper one, the Tagus man declares.

Health Association Helps N. D. Girls

Girls from two colleges in North Dakota are getting additional supplemental training as a result of the child health demonstration in Fargo, which is being conducted by the American Child Health association and financed by the Commonwealth fund, says Dr. William J. French, director of the demonstration.

One group, made up of girls from the physical education department of the Moorhead State Teachers' college, is getting its experience in work among children at one of the play centers which the demonstration is conducting. So satisfactory has their work been, says Dr. French, that efforts are to be made to continue their aid in the future.

The other group was from the agricultural college, and its work consisted of demonstrations in canning health foods which are essential to the proper development of the children. Similar activities are planned in the future to meet requests from the Parent Teachers' association groups.

EQUIPMENT STOLEN

Rhame, N. D., Aug. 25.—Thieves entered the Equity elevator at 1:45 and stole the pump engine, 150 gallons of gasoline, about 200 feet of lumber and some tools. At Griffin yeggs broke into the Equity elevator, worked the combination of the safe and ransacked it but took nothing of value except a set of sieves.

Kewanee, Wis., has the biggest mayor. He is the biggest man in Kewanee. He weighs 400.

AFRON GLORIFIED

The apron is an indispensable part of the fall frock. Sometimes the apron is transformed into a wrapped tunic, sometimes into a cape.

ARRIVES FOR VISIT

Miss Oysha Palen of Dickinson arrived yesterday afternoon to visit with Miss Ruby Peterson of 218 First.

Chinese Boycott Causes Trouble In Ocean Trade

Tokio, Aug. 25.—Japan's export trade to China has suffered enormously during the last few months owing to the Chinese boycott of Japanese goods. Steamship companies also have been hard hit.

Japanese merchants are up in arms, and resolution after resolution is being passed demanding that the government take some firm action to bring about a change. The foreign office, however, has found it impossible to do more than send ships to protect Japanese subjects and property and bring the matter before the Chinese government with a request that local officials take steps to put an end to this unfriendly attitude.

From the beginning of the year to the end of May Japan's export trade fell off by more than 20,000,000 Yen. Since then there has been no diminution of the boycott.

BANK REORGANIZED

Strasburg, Aug. 25.—The German State Bank of Strasburg has been reorganized and will be known in the future as the Farmers State Bank, Strasburg, N. D. Officers elected are as follows: President, Peter W. Groen; Vice Presidents, Egidi Keller and C. Rowerdink; Cashier, W. C. Rowerdink; Directors, Peter W. Groen, C. Rowerdink, Egidi Keller, Jacob Van der Vorste and John Haak.

CAPITOL

Against a rural background of rare beauty and charm, the new William Fox offering, appearing at the Capitol theater Monday, unfolds a fascinating drama through which runs a romantic thread happily knotted in the end.

Special praise should be given to William Walling for his excellent portrayal of the title role. The cast, however, being all star, performs in a sympathetic, natural vein.

Veteran Drayman Of Forks Is Dead

Grand Forks, Aug. 25.—Michael J. Londergan, veteran Grand Forks drayman, died unexpectedly at his home Wednesday of heart failure. Death came while he was sleeping at the family home, where he lay down after the supper hour for a nap. Some of the members of the immediate family attempted to awaken him at about 11 o'clock, but found that he had passed away. Heart failure is supposed to have been the cause.

Social and Personal

World War Nurse Is Honor Guest At Hawaiian Party

Mrs. J. C. Beck and her sister, Miss Minnie Freise entertained last evening at a Hawaiian party honoring Miss Lillian Frankhauser, R. N., who has been engaged in nursing in Hawaii for the past two years, at the home of Mrs. Beck.

The party was in the nature of a handkerchief shower, since Miss Frankhauser returns to Honolulu the first part of September to be married to a naval officer. The twelve guests were nurses from the Bismarck hospital, being members of the classes of '10, '11, '12, '13, '14 and '16. The young women spent the evening in renewing acquaintances. Miss Frankhauser has served in Hawaii as a nurse for the past two years, spent eighteen months during the World War in Europe as a nurse, receiving three citations for bravery for performing her work from General Pershing, President Poincaré of France, and was chosen as one of nine nurses to be placed in charge of one of the American hospitals at Coblenz, Germany at the close of the war.

Before serving the four course luncheon at 11 o'clock the honor guest was presented with a large basket, charmingly decorated with Hawaiian colors, filled with beautiful handkerchiefs. Miss Freise made the presentation.

Decorations in the dining room were in the popular gold and brown colors of the island province of the United States. Unique favors were given the guests in the shape of Hoola, Hoola girls with their yellow dancing skirts and jackets and ornamental neck pieces. Hawaiian music was played during the luncheon. Mrs. Susie Peterson Wallace of Missoula, Mont., who is visiting with her sister, Mrs. B. D. Wetmore here was an out of town guest.

Miss Frankhauser left this morning for Lodi, Calif., to visit with her parents before sailing for Honolulu.

Sells House

John Beattie of Mandan, has sold the residence he owned on West Thayer street, Bismarck, to A. S. Erickson, of the farm loan department of the Bank of North Dakota. Possession will be given about October 1. The deal was made through the Hedden Real Estate Agency.

Enters Eastern University

Rev. Geo. B. Newcomb, Superintendent of the Humane Society for the Friendless and son William W. Newcomb will leave on number four tonight for Rochester, N. Y., where William will enter the University of Rochester, matriculating in the Arts course. The Young Peoples' society of the Baptist church recently gave him a surprise party in honor of his going.

While at college he will make his home with his uncle, Dr. Harvey H. Newcomb.

Superintendent Newcomb will visit with his brother Dr. Harvey H. Newcomb in Rochester and later together to Boston and other points. While in Boston Mr. Newcomb will be in attendance on the American Prison Congress as an official delegate. He will also do some research work while East in the field of child welfare especially as to delinquency and child placing.

RETURN FROM VACATION
Mr. and Mrs. C. B. Nupen have returned from Clear Lake, S. D., where they have been enjoying a vacation. They were joined at Velva, S. D., by their daughter, Miss Veina and at Cogswell, S. D., by their son, Norman who have been spending the summer with relatives in those places.

Install New Equipment
In addition to the X-Ray Department, of the St. Alexis Hospital they have just installed one of the latest Stabilized Mobile X-Ray Bed-side units, which will enable them to take X-Ray pictures in the rooms of those patients who are unable to be moved to the X-Ray Department.

Wednesday 8 p. m.—Service of Praise and Prayer.

CHURCH TO BE REBUILT
Fargo, Aug. 25.—Reports from Eylon township say that the Hegland church which burned there last Monday will be rebuilt in the near future.

The building was struck by lightning Monday afternoon at 4 o'clock, but all the furniture, and valuables, and half of the windows were successfully removed by neighboring farmers before they were damaged. It is said that the steeple burned for over an hour before the fire reached the roof. Only the concrete block shell remains.

Rev. E. L. Tungseth is the pastor.

Evangelical Church
Church, corner Seventh and Rosser Sts., C. F. Strutz, pastor.
German services from 9:30 to 10:30 a. m. All other services are conducted in the English language.

SUGGESTIONS ADVANCED ON WATER USE

Hot weather, just like extremely cold weather, is a danger period in the life of any storage battery unless the proper care is given it. So warns the Corwin Motor Co., local Willard service station dealers. "Summer weather is probably the most dangerous time the battery must pass through because the automobile is used more during this period. This is the time when overheating a battery is liable to happen."

"Motorists as an average are prone to forget or neglect keeping the battery filled with pure distilled water in hot weather. Evaporation of the water in the solution in the battery during hot weather is rapid. If the level of the water is permitted to reach a point below the tops of the plates, the upper portion is left exposed and useless. The covered portion of the plates are then obliged to assume the extra burden of the useless portion. This causes rapid overheating and damage not seen at the time, but which results in considerable expense later."

"A doctor will always recommend plenty of pure water. Apply this same advice to a battery and it will do its work properly."

"Overheating of a battery may result from an undercharged condition continuing for sometime. This starved condition may be due to the inexperience or lack of knowledge on the part of the driver, who does not use judgment in operating his lights, or who uses the starter oftener than necessary."

"When undercharged for some time, plates become hardened and offer greater resistance to the charging current. If therefore a car with a starved battery is taken on a long run, the normal charging rate will produce intense heat in the battery to such an extent that the plates will buckle. If the battery were in a normal healthy condition this would not occur."

"Periodic inspection of your battery's condition during hot summer weather by a battery service station is about the best sort of trouble insurance you can carry."

AFRON GLORIED.
The apron is an indispensable part of the fall frock. Sometimes the apron is transformed into a wrapped tunic, sometimes into a cape.

ARRIVES FOR VISIT
Miss Oysha Pallen of Dickinson arrived yesterday afternoon to visit with Miss Ruby Peterson of 218 First.

Local Women Conduct Rest Room at Fair

Members of the Bismarck W. C. T. U. will have charge of a rest room in Mandan during the Missouri Slope Fair. Committees of ladies will have charge each day of the rest room which will be centrally located on the fair ground.

In connection with its Dr. Louisa Boutelle of the United States Health Department, and her assistant, Miss Olson, nurse, will conduct a free clinic for children. This is the first time in the history of a fair that a child welfare clinic has been operated in connection with it. During the past fair season Dr. Boutelle has held clinics at various fairs in the state.

Last year the Bismarck women of the W. C. T. U. conducted the rest room for the first time. It proved so successful at that time that they have repeated their work this year.

N. D. Girl To Be Soloist With Sousa

Minot, Aug. 25.—Miss Nora Fauchald of this city, has just closed a contract for an engagement this season as soprano soloist with Sousa's band. Miss Fauchald will join the organization in New York City within a few days and will leave early in the fall on a tour of the United States.

Winnipeg, Man., Aug. 25.—W. J. Roberts, recently of Oakes, N. D. holds the record for the number of members of one family entering Canada by automobile. He arrived at the border with his wife, eight sons, two daughters and a nephew, all 13 seated in an automobile with trailer, carrying cooking utensils and everything required enroute. They are going into the Edmonton district to take up a homestead. Two of the children are twins and 13 was their lucky number, as all were healthy in appearance and in a cheerful mood.

INCOMES SINK IN NO. DAKOTA

The total of individual net incomes in North Dakota, coming under the federal income tax in 1921, sank to \$43,032,753, according to figures just made public by the federal internal revenue headquarters of the state in Fargo. The records are for the calendar year.

This is the smallest total income taxed in the state since the law became effective in its present form in 1917, according to the records.

It is a 35 percent decrease from 1920.

The total number of incomes reported in 1921 for the state dropped from 18,440 in 1921 to 24,209 in 1920, a decrease of 24 percent.

The total reported income for the same year showed a falling off of 17.52 percent in total income and a decrease of 8.23 percent in number of incomes filed.

The following short tables give comparisons between the state and the United States as a whole and

Health Association Helps N. D. Girls

Girls from two colleges in North Dakota are getting additional supplementary training as a result of the child health demonstration in Fargo, which is being conducted by the American Child Health association and financed by the Commonwealth fund, says Dr. William J. French, director of the demonstration.

One group, made up of girls from the physical education department of the Moorhead State Teachers' college, is getting its experience in work with the children of the public centers which the demonstration is conducting. So satisfactory has their work been, says Dr. French, that efforts are to be made to continue their aid in the future.

The other group was from the agricultural college, and its work consisted of demonstrations in canning health foods which are essential to the proper development of the children. Similar activities are planned in the future to meet requests from the Parent Teachers' association groups.

The Fargo demonstration is fast becoming a clearing house for health examinations, information about child health and the development of better methods of securing 100 per cent healthy child life, Dr. French states.

EQUIPMENT STOLEN
Rhone, N. D., Aug. 25.—Thieves entered the Equity elevator at Ives and stole the pump engine, 150 gallons of gasoline, about 200 lbs. of lumber and some tools. At Griffin, thugs broke into the Equity elevator, worked the combination of the safe and ransacked it but took nothing of value except a set of sieves.

Kewaunee, Wis., has the biggest mayor. He is the biggest man in Kewaunee. He weighs 400.

Chinese Boycott Causes Trouble In Ocean Trade

Tokio, Aug. 25.—Japan's export trade to China has suffered enormously during the last few months owing to the Chinese boycott of Japanese goods. Steamship companies also have been hard hit.

Japanese merchants are up in arms, and resolution after resolution is being passed demanding that the government take some firm action to bring about a change. The foreign office, however, has found it impossible to do more than send ships to protect Japanese subjects and property and bring the matter before the Chinese government with a request that local officials take steps to put an end to this unfriendly attitude.

From the beginning of the year to the end of May Japan's export trade fell off by more than 20,000,000 Yen. Since then there has been no diminution of the boycott.

TURKEYS WILL BE PLENTIFUL

Fargo, N. D., Aug. 24.—"An abundance of turkeys are assured for the 1923 Thanksgiving and Christmas dinners," said O. B. Barton, poultry expert at the North Dakota Agricultural college today. "There is a large crop of young turkeys throughout the state of North Dakota, but there still remains the problem of getting them into good condition for the block. Prospects look for at least reasonable if not excellent prices."

Mr. Barton has been communicating with several eastern poultry commission firms and expects to be able to efficiently market all of the North Dakota surplus at eastern market centers.

"While traveling through Grand Forks county this week," he continued, "I noticed a great improvement through better methods of caring for the flocks. If the turkeys are given sufficient feed and care between now and marketing, they will be a valuable addition to the farm revenue."

Band Has Last Practice; Register BAND-SOC.

Bismarck's juvenile band held its last practice for the summer season today. The children will begin work again Sept. 5 when classes will be held three times a week, Monday, Wednesday, and Friday at 7 o'clock at Will's school. Members of this group which number about 60 children, will be known as the advanced class.

Next week registration of those who wish to begin the study of band music will be conducted at the Association of Commerce rooms. L. C. Sorlein, director of the band, will be in charge. The Association of Commerce rooms for consultation with children and their parents in regard to band instruments and the course of study from 2 to 3:30 o'clock each afternoon.

Succumbs After Long Illness

C. G. Wachsmann of Elgin, 24, died at a local hospital yesterday afternoon at 4 o'clock after a protracted illness due to Bright's disease. Mr. Wachsmann had been in the hospital for several weeks. Mrs. Wachsmann who had been attending her husband was taken to the hospital yesterday for treatment.

BUMPER FLAX CROP
Minot, Aug. 25.—Wheat will average at least 10 bushels an acre in the Tagus vicinity, in the opinion of Ira D. Bush of that city. The flax crop promises to be a bumper one, the Tagus man declares.

Veteran Drayman Of Forks Is Dead

Grand Forks, Aug. 25.—Michael J. Londergan, veteran Grand Forks drayman, died unexpectedly at his home Wednesday of heart failure. Death came while he was sleeping at the family home, where he lay down after the supper hour for a nap. Some of the members of the immediate family attempted to awaken him at about 11 o'clock, but found that he had passed away. Heart failure is supposed to have been the cause.

BANK REORGANIZED

Strasburg, Aug. 25.—The German State Bank of Strasburg has been reorganized and will be known in the future as the Farmers State Bank, Strasburg, N. D. Officers elected are as follows: President, Peter W. Groen; Vice Presidents, Egidi Keller and C. Rowerdink; Cashier, W. C. Rowerdink; Directors, Peter W. Groen, C. Rowerdink, Egidi Keller, Jacob Van der Vorste and John Haak.

Fargo Elks To Lay Cornerstone

Fargo, Aug. 25.—The cornerstone for the new Elks home at First Ave. and Eighth St. N., will be laid by U. C. Ayiliff, exalted ruler of Fargo lodge No. 260, on Sunday afternoon, Sept. 2, according to announcement.

The Elks purple band will play, a nationally known member of the lodge, not yet chosen, will deliver the main address and the ceremony provided by the ritual of the order will be followed.

The cornerstone will contain a Fargo city directory, copies of Fargo's two daily newspapers and of the lodge's paper, "260 Chaff" and various other papers.

The ceremony will be open to the public.

RUSSIAN NOBLES STILL FLEE

Michigan, N. D., Aug. 24.—Many of the old Russian nobility may be seen at Shanghai, China, and many are making their way to the United States in fleeing from Bolshevik wrath, according to Robert H. Smith, oldest son of Prof. and Mrs. R. E. Smith of Michigan, who has just returned to his home here after a trip to the Orient, which he won for scholastic honors attained at Notre Dame university. He says 200 of the former Russian nobility took steamer passage to the United States on the steamship on which he sailed home.

On the morning he arrived at Shanghai seven Chinese bandits were executed by shooting, he says. They dig their own graves, and when shot generally fall into them and are then simply covered up.

with two pairs of knickers, belt-buckle, double-elbow, extra cloth patch, emergency buttons and 23 other points of superiority in construction is sold exclusively by this store. We have them in all this season's most desirable patterns and colors at \$16.00.

Just think of all the cloth trimmings, cutting and sewing that go into a "CORTELY" suit for a boy and, yet we have them at \$10.50, \$12.50 and \$14.00.

SPORTS

HORNSBY IS EASY LEADER IN BATTING

St. Louis Slugger Goes Serenely on Toward Own Record, While Team Fails

RUTH STILL GAINING

Chicago, Aug. 25.—Despite the three-cornered race in the National League between New York, Cincinnati and Pittsburgh for pennant honors, Rogers Hornsby of St. Louis, continues serenely on, in his role as leading batter in the older circuit, according to averages compiled of players participating in seventy or more games and including games of last Wednesday.

Hornsby has an average of .397, which is a drop from his .405 of last week but he continues to lead Zack Wheat of Brooklyn who has .378 and Bottomley of St. Louis who has .370. Pep Young of New York, however, heads the list of run-getters with 101 while Frisch, also of the Giants, leads the extra base columns with 249 which includes 11 home runs, nine three baggers and 26 doubles. Ken Williams of Philadelphia added a home run to his long string and has 30 for the season thus far with no body near him in his own league. Melvin of Boston broke the sacrifice base hit tie with Duncan of Cincinnati during the week and leads with 25 while Duncan failed to sacrifice and has 23.

George Grantham of Chicago is out in front among base stealers having 37, but is closely pursued by Carey of Pittsburgh with 35 and Heathcote of Chicago with 31.

Other leading batters are: Fournier, Brooklyn, .367; Young, New York, .353; Traynor, Pittsburgh, .350; Bouch, Cincinnati, .350; Hargrave, Cincinnati, .350; Frisch, New York, .348; Barnhart, Pittsburgh, .349.

Ruth Goes Strong
Babe Ruth is making the American League averages look somewhat like a one man league proposition. He leads all the batters in hitting with an average of .404 which is a gain of nine points during the week. He leads in home runs with 32, a gain of two during the week. He leads in total bases with 360, a gain of 22 during the week and he leads in runs scored with 114, a gain of 7 during the week. On the whole he was rather successful during the week.

The nearest in hitting to him is Heilmann of Detroit with .388 and Speaker of Cleveland with .368. The averages include players who have taken part in 70 games or more and include games of last Wednesday.

Eddie Collins of Chicago is the only leader in the league besides Ruth. Eddie is out ahead of all the base stealers with 36 pilfered sacks to his credit and he likewise tops the list of sacrifice hitters with 35.

Ruth's record of total bases include, with his 32 home runs, nine triples and 31 doubles. Ruth's record includes 113 games, 384 times at bat, 114 runs, 155 hits, 3 sacrifice hits and 10 stolen bases.

Other leading batters are: Sewell, Cleveland, .364; Jamieson, Cleveland, .363; Williams, St. Louis, .348; J. Harris, Boston, .347; Eddie Collins, Chicago, .345; Manush, Detroit, .347; Witt, New York, .334; Burns, Boston, .334; Cobb, Detroit, .333.

East Still Leads

The first five batting leaders in the American association did not change positions during the week. East of Minneapolis leading with .409 the same average he had a week ago, although he batted 27 times during the week, and held his position and his former figures. Terry of Toledo continues in second position with .390, a drop of one point during the week, while Combs of Louisville remains third with .385 a gain of two points on the week.

The averages are for games including that of last Wednesday and are of players taking part in 70 or more games. Lamar of Toledo is fourth with .380, a gain of two points and Bunty Brief of Kansas City is fifth with .372 a drop of a single point. Brief however leads in total runs with 121, in total bases with 294 and in home runs with 26. There is a warm race on for stolen base honors, Conney of Milwaukee leading at present with 35, closely pursued by Murphy of Columbus, who has 34.

GOLF TOURNEY IS ANNOUNCED

Fargo, Aug. 25.—An invitation golf tournament, open to all players in the state, will be held on the Fargo Country club course on Sept. 2 and 3, it was announced by the tournament committee. Saturday, Sept. 1, will be practice day for visiting players, and if there are enough of them present, the course will be restricted to their use.

Unlike other invitation tournaments held in the past few years, the Fargo tourney will be a 72 hole medal contest, providing state players a better test of amateur golf than they have known. Medal play is the only real golf test there is, for proof of which witness the professional contests that always are at medal play. Grand Forks players will be here 20 strong, and there will be delegations from Minot, Kenmare, Devils Lake, Dickinson, Bismarck, New Rockford, Valley City and Jamestown. Tolley, a recently organized club, sent in word that it would have five players here.

This world is so full of a number of things, Salem (Ore.) doctors found a glove in a man.

SAM JONES

BY BILLY EVANS.

Ty Cobb is unquestionably the greatest batsman of all time. Opposing pitchers will tell you that Cobb has few if any weaknesses at the plate. In the batting end of the game Cobb is about the last word. There is style to his every move. There is a reason for everything that he does.

The pitcher is Cobb's arch enemy. To a great many pitchers Cobb is "poison" in the parlance of the ball field.

Now just who does Ty regard as the stylist among American League pitchers?

His Delivery Ideal.

Sam Jones of the New York Yankees was the man Cobb named for me during a recent discussion of big league pitchers.

"There may be more effective pitchers than Jones, pitchers capable of standing more work, but to my way of thinking Sam Jones is the stylist among American League pitchers."

FIRPO WORKS HARD ON ROAD

Atlantic City, Aug. 25.—Louis Angel Firpo today increased his program of training for his title match with Jack Dempsey in New York September 14. In addition to the private workout the Argentine went for a short road jaunt before breakfast. Firpo walked for several miles, then shadow-boxed and wrestled. Sparring will take up the greater part of the training program for the present.

WORLD SERIES STARTS OCT. 9

New York, Aug. 25.—This year's world series between National and American League champions will start on October 9 or 10, according to present plans. The major league season, closing a week later than in 1922 is scheduled to end October 7. Should both New York clubs maintain their places at the top for the third successive year, the annual struggle probably will begin Tuesday, October 9. In the event either or both is displaced, however, and the champion teams separated by a greater distance, the series likely would start October 10. No action on details will be taken by baseball officials until more certainty exists as to the outcome of the pennant race. They will be worked out sometime next month by President Heydler and Johnson of the National and American Leagues in conference with Commissioner Landis.

INCORPORATIONS

Articles of incorporation filed with the Secretary of State include: Electric Construction Co., Grand Forks; capital stock \$20,000; incorporators, Paul A. Goodman, Walter H. Schlosser, Emil W. Johnson, Henry Hagen, Albert Hanker. Bill Smith, Regalia Inc., Mar marth; capital stock \$25,000; incorporators, Emil Scow, W. J. Johnson, P. J. Bott, J. H. Cramer, W. C. Vandervort. GIANTS TAKE GAME BUT DO NOT ADVANCE

For Cincinnati Reds, with Luque Pitching Great Ball, Also Go Forward

Chicago, Aug. 25.—(By the Associated Press)—The New York Giants after a long and weary period of defeat got into the victory column again yesterday, beating the St. Louis Nationals at the Polo Ground, 6 to 4. It took 14 innings to turn the trick and they only succeeded on a fumble by Bill Doak, of the St. Louis team. The New Yorkers failed to gain in the standing as the Cincinnati Reds beat the Robins.

The Reds won 4 to 0 in Brooklyn. Luque held the Brooklyn Nationals to four scattered hits and struck out seven, taking the National League lead for strike-outs with a total of 128.

The New York Yankees in Detroit also returned to their winning form, defeating the Tigers 7 to 1.

The Senators pounded five Indian pitchers in Cleveland and won the final game of the series there 20 to 8. The Washington team used three pitchers.

The Pittsburgh Nationals won, 7 to 2, in Boston.

Cy Williams hit his 32nd home run of the season in Philadelphia, enabling the Phillies to win 6 to 5, and made a clean sweep of the four games there. McManus made a home run.

The Philadelphia Athletics beat the Chicago White Sox, 3 to 2.

37 INNINGS OF BASEBALL

Minot, N. D., Aug. 25.—A northwestern baseball tournament, in which the Roseglens, Van Hook, Des Laes and Tigra teams will compete for the independent championship of northwestern North Dakota will be held here, according to an announcement by Herb Hester, manager of the pennant winning Minot team of the North Dakota league this year. The attraction is being staged as a substitute for the Minot-Bismarck exhibition game which was to have been held last Monday in connection with the pennant raising exercises.

Three seven inning games will be played Sunday, the first game to be called at 1 p. m. A percentage of the gate receipts will revert to the Minot baseball club, hence a large ticket sale will mean a neat sum for the local team and may make up for the financial losses sustained on account of poor attendance during the season just closed.

Kinks of the Links

Player drives his ball from the teeing ground, which is located on the bank of a small body of water, into the water. Has the player the right to re-tee his ball or must he drop the ball back on the teeing ground?

The small body of water, on the bank of which is located the tee, is a water hazard. A ball driven from the tee into a water hazard must be regarded in the same light as a ball played into a water hazard from any other place on the course. The player has no right to again tee the ball. It must be dropped, but not necessarily on the teeing ground if the player prefers some other place.

Two players reach the green in the same number of strokes. The player farthest from the cup plays his ball which takes a freakish course, comes into contact with his opponent's ball and knocks it into the hole. How is such a happening regarded?

It is simply a break of the game which works to the decided advantage of the player whose ball was knocked into the hole. He shall be deemed to have holed out at his last stroke. If he reached the green in three, and then had his ball knocked into the hole when his opponent's ball struck it, his score for that hole shall be three.

Has the referee or umpire in a golf match the right to take action for any breach of the rules he may see, or must he wait until an appeal has been made before giving a decision?

An umpire or referee, when agreed upon, shall take cognizance of any breach of rules that he may observe, whether he be appealed to on the point or not.

PRISON PROVES SCHOOL
Columbus, N. D., Aug. 24.—Fifteen months in the state penitentiary has been an excellent schooling and experience for Joe Cianciotto, he declares, following his return to Columbus after serving that much of a three year sentence for grand larceny. Cianciotto has been pardoned. He still insists he is innocent of the charges placed against him.

NOTICE!
Continue boiling city water. City Health Officer.

NOTICE TO PARENTS
The public schools will open for registration and organization Labor Day, Monday, September 3. Labor Day, is not a school holiday under our state law and schools must convene that day. Only short session. H. O. Saxvik, Supt. 8-25-27

Cleanliness A Modern Idea

Shortly before the Civil War, Boston made it a prison offense to take a bath except on the advice of a physician. The Philadelphia Council tried to make it illegal to bathe between November 1 and March 15 and failed by one vote. Virginia placed a luxury tax of \$30 on each bathtub in the state.

Ideas regarding cleanliness have changed materially since then. In fact, ideas on almost everything have undergone something of a metamorphosis. Today, these changes are taking place more rapidly than ever before. There has never been a time when evolution hit such a furious pace—when conditions changed so quickly—when standards of living were raised so consistently.

You may not realize it, but advertising is responsible for much of this improvement. Advertising has taken its place as a leading force in solving the wants of the people.

Stop and think how many of the appliances you use, the foods you eat, the clothes you wear and other articles entering into your daily life, were popularized through newspaper advertising.

Then you will realize what a debt you owe to advertising.

The advertisements mean a lot to you Don't fail to read them

STUDY OF WINTER WHEAT BELT
(Continued from Page One.)
with pasture, a hay crop such as alfalfa or some other hay and with a cultivated crop such as corn, potatoes, etc., and by working in oats, barley, rye and other crops and enough livestock to use the pasture, hay and corn, I believe the spring wheat farmers have as good or better chance to make good than those farther south.

Fourth: Concerted move to reduce wheat acreage. The states I have covered should be divided into two groups: first, the corn states where wheat is secondary, such as Illinois, Iowa and Missouri with parts of Kansas and Nebraska and second, the wheat areas of Kansas, Oklahoma, Texas and Colorado.

"In the first group they figure 40 bushels of corn at 50 cents equals \$20.00, while it takes 20 bushels of wheat at \$1.00 to make \$20.00 per acre. In this area they have cut the corn down 2 million acres and increased the wheat 2 million acres in the last few years. Whether they reduce wheat and increase corn this year will depend on the relative prices of wheat and corn this fall. There is no active movement to cut down the wheat acreage at this time. While farmers are not satisfied with wheat prices they have no organized move to improve the situation.

"In the Kansas, Oklahoma, Texas, Colorado area they have a different problem. It is wheat or beef cattle and with the present low values of beef there is no movement to cut down wheat acreage in favor of cattle. In Texas and Oklahoma they are trying cotton but the boll-weevil is a menace and this area has increased wheat several millions of acres in recent years.

"Better prices for cattle or control of cotton acreage would result in less wheat but these are not in sight at this time and as noted above there is no concerted move to reduce wheat acreage.

Wheat Price Control
"Fifth: Wheat price control. All over the strictly winter wheat growing area including much of Kansas, Oklahoma and neighboring states there is great dissatisfaction with wheat prices (as there is of cattle prices). But there is no concerted move to get legislation, either state or national. Kansas has just had a special session of the legislature to vote a 25 million dollar soldiers' bonus and the price of wheat was not mentioned. They adjourned a few days ago.

"The movement in this territory seems all to be toward cooperative marketing. Practically none of the papers or farmers' organizations have joined in any request for action, by Congress while many meetings are held and papers advocate controlled marketing by farmers."

Citizens Deputized As Night Watchmen
Mohall, N. D., Aug. 25.—Deputizing of each member of the Mohall Commercial club, just revived, as a night watchman during the fall months is one of the proposals now before the membership for consideration. An employment office has been opened at the Piner-Howe Lumber Co., through the efforts of the club. Officers of the club are: President, William Clifford; vice president, A. Welle; secretary and treasurer, J. N. Urness.

CONTRACTS LET
Minot, N. D., Aug. 25.—The general construction contract for the building of McHenry county poor farm home, six miles northeast of Velva, has been let to James Burris of this city at a bid of \$8,344. The building will be of frame construction. The American Heating & Plumbing Co., Velva, was awarded the contract for the plumbing work at a bid of \$3,358.85.

STUDY OF WINTER WHEAT BELT

(Continued from Page One.)

with pasture, a hay crop such as alfalfa or some other hay and with a cultivated crop such as corn, potatoes, etc., and by working on oats, barley, rye and other crops and enough livestock to use the pasture, hay and corn, I believe the spring wheat farmers have as good or better chance to make good than those farther south.

"Fourth: Concerted move to reduce wheat acreage: The states I have covered should be divided into two groups: first, the corn states where wheat is secondary, such as Illinois, Iowa and Missouri with parts of Kansas and Nebraska and second, the wheat areas of Kansas, Oklahoma, Texas and Colorado.

"In the first group they figure 40 bushels of corn at 50 cents equals \$20.00, while it takes 20 bushels of wheat at \$1.00 to make \$20.00 per acre. In this area they have cut the corn down 2 million acres in the last few years. Whether they reduce wheat and increase corn this year will depend on the relative prices of wheat and corn this fall.

There is no active movement to cut down wheat acreage at this time. While farmers are not satisfied with wheat prices they have no organized move to improve the situation.

"In the Kansas, Oklahoma, Texas, Colorado area they have a different problem. It is wheat or beef cattle and with the present low values of beef there is no movement to cut down wheat acreage in favor of cattle. In Texas and Oklahoma they are trying cotton but the boll-weevil is a menace and this area has increased wheat several millions of acres in recent years.

"Better prices for cattle or control of cotton enemies would result in less wheat but these are not in sight at this time and as noted above there is no concerted move to reduce wheat acreage.

Wheat Price Control

"Fifth: Wheat price control. All over the winter wheat growing area including much of Kansas, Oklahoma and neighboring states there is great dissatisfaction with wheat prices (as there is of cattle prices). But there is no concerted move to get legislation, either state or national. Kansas has just had a special session of the legislature to vote a 25 million dollar soldiers' bonus and the price of wheat was not mentioned. They adjourned a few days ago.

"The movement in this territory seems all to be toward cooperative marketing. Practically no farmers, papers or farmers' organizations have joined in any request for action by Congress while many meetings are held and papers advocate controlled marketing by farmers."

Citizens Deputized As Night Watchmen

Mohall, N. D., Aug. 25.—Deputizing of each member of the Mohall Commercial club, by the city of Mohall, as a night watchman during the fall months is one of the proposals now before the membership for consideration. An employment office has been opened at the Pipe-House Lumber Co., through the efforts of the club. Officers of the club are: President, William Clifford; vice president, A. Wells; secretary and treasurer, J. N. Urness.

CONTRACTS LET

Minot, N. D., Aug. 25.—The general construction contract for the building of McHenry county poor farm home, six miles northeast of Velva, has been let to James Burris of this city at a bid of \$8,244. The building will be of frame construction. The American Heating & Plumbing Co., Velva, was awarded the contract for the plumbing work at a bid of \$3,358.85.

SPORTS

HORNSBY IS EASY LEADER IN BATTING

St. Louis Slugger Goes Serenely on Toward Own Record, While Team Fails

RUTH STILL GAINING

Chicago, Aug. 25.—Despite the three cornered race in the National League between New York, Cincinnati and Pittsburgh for pennant honors, Rogers Hornsby of St. Louis, continues serenely on, in his role as leading batter in the older circuit, according to averages, compiled of players participating in seventy or more games and including games of last Wednesday.

Hornsby has an average of .397, which is a drop from his .405 of last week but he continues to lead Zack Wheat of Brooklyn who has .378 and Bottomley of St. Louis, who has .370. Pop Young of New York, however, heads the list of run getters with 101 while Frisch, also of the Giants, leads the extra base columns with 249 which includes 11 home runs, nine three baggers and 26 doubles. Ken Williams of Philadelphia added a home run to his long string and has 30 for the season thus far with nobody near him in his own league. McManus of Boston broke the sacrifice home hit tie with Duncan of Cincinnati during the week and leads with 25 while Duncan failed to sacrifice and has 23.

George Grantham of Chicago is out in front among base stealers having 27, but is closely pursued by Carey of Pittsburgh with 25 and Headley of Chicago with 21.

Other leading batters are: Fournier, Brooklyn, .367; Young, New York, .353; Traynor, Pittsburgh, .350; Roush, Cincinnati, .350; Hargrave, Cincinnati, .350; Frisch, New York, .348; Barnhart, Pittsburgh, .340.

Ruth Goes Strong
Babe Ruth is making the American League averages look somewhat like a one man leader proposition. He leads all the batters in hitting with an average of .404 which is a gain of nine points during the week. He leads in home runs with 32, a gain of two during the week. He leads in total bases with 360, a gain of 22 during the week and he leads in runs scored with 114, a gain of 7 during the week. On the whole he was rather successful during the week.

The nearest in hitting to him is Heilmann of Detroit with .388 and Speaker of Cleveland with .368.

The averages include 70 games or more and include games of last Wednesday.

Eddie Collins of Chicago is the only leader in the league besides Ruth. Eddie is out ahead of all the base stealers, with 36 pilfered sacks to his credit and he likewise tops the list of sacrifice hitters with 35. Ruth's record of total bases includes 113 games, 384 times at bat, 114 runs, 155 hits, 3 sacrifice hits and 10 stolen bases.

Other leading batters are: Sewell, Cleveland, .364; Jamieson, Cleveland, .363; Williams, St. Louis, .362; J. H. Dwyer, Boston, .347; Eddie Collins, Chicago, .345; Manush, Detroit, .337; Witt, New York, .334; Burns, Boston, .334; Cobb, Detroit, .323.

East Still Leads

The first five batting leaders in the American association did not change positions during the week. East of Minneapolis leading with .400 the same average he had a week ago, although he batted 27 times during the week, and held his position and his former figures. Terry of Toledo continues in second position with .390, a drop of one point during the week, while Combs of Louisville remains third with .385 a gain of two points on the week.

The averages are for games including that of last Wednesday and are of players taking part in 70 or more games. Lamar of Toledo is fourth with .380, a gain of two points and Bunney of Kansas City is fifth. Brief however leads in total runs with 121, in total bases with 294 and in home runs with 26. There is a warm race on for stolen base honors, Conney of Milwaukee leading at present with 25, closely pursued by Murphy of Columbus, who has 24.

GOLF TOURNEY IS ANNOUNCED

Fargo, Aug. 25.—An invitation golf tournament, open to all players in the state, will be held on the Fargo Country club course on Sept. 2 and 3. It was announced by the tournament committee. Saturday, Sept. 1, will be practice day for visiting players, and if there are enough of them present, the course will be restricted to their use.

Unlike other invitation tournaments held in the past few years, the Fargo tourney will be a 72 hole medal contest, providing state players a better test of amateur golf than they have known. Medal play is the only real golf test there is, for proof of which witness the professional contests that always are at medal play. Grand Forks players will be here 20 strong, and there will be delegations from Minot, Kenmare, Devils Lake, Dickinson, Bismarck, New Rockford, Valley City and Jamestown. Tolley, a recently organized club, sent in word that it would have five players here.

This world is so full of a number of things, Salem (Ore.) doctors found a glove in a map.

Sam Jones, With His Easy Delivery, Wins Word of Praise From Veteran Ty

SAM JONES

BY BILLY EVANS.

Ty Cobb is unquestionably the greatest batsman of all time. Opposing pitchers will tell you that Cobb has few if any weaknesses at the plate.

In the batting end of the game Cobb is about the last word. There is style to his every move. There is a reason for everything that he does.

The pitcher is Cobb's arch enemy. To a great many pitchers Cobb is "poison" in the parlance of the ball field. Now just who does Ty regard as the stylist among American League pitchers?

His Delivery Ideal.

Sam Jones of the New York Yankees was the man Cobb named for me during a recent discussion of big league pitchers.

"There may be more effective pitchers than Jones, pitchers capable of standing more work, but to my way of thinking Sam Jones is the stylist among American League

pitchers," said Cobb. "Jones has the ideal delivery. He is free, pitches without the slightest effort."

"Sam has everything in this assortment of foolers, a good fast ball, fast breaking curve and a fine change of pace."

Better When Careless.

"When Jones is pitching, his team really should have five infielders as he is a wonder moving around the box. That helps considerably."

"Jones is one of the few pitchers who can deliver his slow ball with exactly the same motion as his fast one. That is puzzling to the batsman and believe me Jones has a slow ball that is a wonder."

"If Jones has a single fault it is control, not lack of it but too much of it. He has a tendency to make his pitches too good at times. He is effective when pitching carelessly. To my way of thinking Jones is the real stylist among American League pitchers. He has everything."

GIANTS TAKE GAME BUT DO NOT ADVANCE

For Cincinnati Reds, with Luque Pitching Great Ball, Also Go Forward

Chicago, Aug. 25.—(By the Associated Press)—The New York Giants after a long and weary period of defeat got into the victory column again yesterday, beating the St. Louis Nationals at the Polo Ground, 5 to 4. It took 14 innings to turn the trick and they only succeeded on a fumble by Bill Doak, of the St. Louis team. The New Yorkers failed to gain in the standing as the Cincinnati Reds beat the Robins.

The Reds won 4 to 0 in Brooklyn. Luque held the Brooklyn Nationals to four scattered hits and struck out seven, taking the National League lead for strike-outs with a total of 123.

The New York Yankees in Detroit also returned to their winning form, defeating the Tigers 7 to 1.

The Senators pounded five Indian pitchers in Cleveland and won the final game of the series there 20 to 8. The Washington team used three pitchers.

The Pittsburgh Nationals won 7 to 2 in Boston.

Cy Williams hit his 32nd home run of the season in Philadelphia, enabling the Phillies to win 8 to 5, and made a clean sweep of the four games there. McManus made a home run.

The Philadelphia Athletics beat the Chicago White Sox, 3 to 2.

37 INNINGS OF BASEBALL

Minot, N. D., Aug. 25.—A northwestern baseball tournament, in which the Roseleg, Van Hook, Des Lacs and Tigra teams will compete for the independent championship of northwestern North Dakota will be held here, according to an announcement by Herb Hesser, manager of the Minot team of the North Dakota league this year. The attraction is being staged as a substitute for the Minot-Bismarck exhibition game which was to have been held last Monday in connection with the pennant raising exercises.

Three seven inning games will be played Sunday, the first game to be called at 1 p. m. A percentage of the gate receipts will revert to the Minot baseball club, hence a large ticket sale will mean a neat sum for the local team and may make up for the financial losses sustained on account of poor attendance during the season just closed.

Kinks-o the Links
by PRO

Player drives his ball from the teeing ground, which is located on the bank of a small body of water, into the water. Has the player the right to re-tee his ball or must he drop the ball back on the teeing ground?

The small body of water, on the bank of which is located the tee, is a water hazard. A ball driven from the tee into a water hazard must be regarded in the same light as a ball played into a water hazard from any other place on the course. The player has no right to again tee the ball. It must be dropped, but not necessarily on the teeing ground if the player prefers some other place.

Two players reach the green in the same number of strokes. The player farthest from the cup plays his ball which takes a freakish course, comes into contact with his opponent's ball and knocks it into the hole. How is such a happening regarded?

It is simply a break of the game which works to the decided advantage of the player whose ball was knocked into the hole. He shall be deemed to have holed out at his last stroke. If he reached the green in three, and then had his ball knocked into the hole when his opponent's ball struck it, his score for that hole shall be three.

Has the referee or umpire in a golf match the right to take action for any breach of the rules he may see, or must he wait until an appeal has been made before giving a decision?

An umpire or referee, when agreed upon, shall take cognizance of any breach of rules that he may observe, whether he be appealed to on the point or not.

PRISON PROVES SCHOOL
Columbus, N. D., Aug. 24.—Fifteen months in the state penitentiary has been an excellent schooling and experience for Joe Cianciotto, he declares, following his return to Columbus after serving that much of a three year sentence for grand larceny. Cianciotto has been pardoned. He still insists he is innocent of the charges placed against him.

NOTICE!
Continue boiling city water. City Health Officer.

NOTICE TO PARENTS
The public schools will open for registration and organization Labor Day, Monday, September 3. Labor Day, is not a school holiday under our state law and schools must convene that day. Only short session. H. O. Saxvik, Supt. 8-25-27

FIRPO WORKS HARD ON ROAD

Atlantic City, Aug. 25.—Louis Angel Firpo today increased his program of training for his title match with Jack Dempsey in New York September 14. In addition to the private workout the Argentine went for a short road jaunt before breakfast. Firpo walked for several miles, then shadow-boxed and wrestled. Sparring will take up the greater part of the training program for the present.

WORLD SERIES STARTS OCT. 9

New York, Aug. 25.—This year's world series between National and American League champions will start on October 9 or 10, according to present plans. The major league season, closing a week later than in 1922 is scheduled to end October 7. Should both New York clubs maintain their places at the top for the third successive year, the annual struggle probably will begin Tuesday, October 9. In the event either or both is displaced, however, and the champion team separated by a greater distance, the series likely would start October 10. No action on details will be taken by baseball officials until more certainty exists as to the outcome of the pennant race. They will be worked out sometimes next month by President Heydler and Johnson of the National and American Leagues in conference with Commissioner Landis.

LOAN FUND AVAILABLE.
Jamestown, Aug. 25.—Jamestown College has been selected as an affiliated College by the Harmon Foundation, Inc., of New York City for the purpose of making loans to worthy students from North Dakota. The Foundation has just assigned \$1,000 as the initial amount for this purpose. A local committee on organizations will be formed to handle the loans, and this committee will cooperate with the Harmon Foundation in selection of candidates, etc. This selection of Jamestown College is worthy of note, as the Foundation has so far only selected 20 institutions in America in this enterprise of assisting students in their college finances.

Cleanliness A Modern Idea

Shortly before the Civil War, Boston made it a prison offense to take a bath except on the advice of a physician. The Philadelphia Council tried to make it illegal to bathe between November 1 and March 15 and failed by one vote. Virginia placed a luxury tax of \$30 on each bathtub in the state.

Ideas regarding cleanliness have changed materially since then. In fact, ideas on almost everything have undergone something of a metamorphosis. Today, these changes are taking place more rapidly than ever before. There has never been a time when evolution hit such a furious pace—when conditions changed so quickly—when standards of living were raised so consistently.

You may not realize it, but advertising is responsible for much of this improvement. Advertising has taken its place as a leading force in solving the wants of the people.

Stop and think how many of the appliances you use, the foods you eat, the clothes you wear and other articles entering into your daily life, were popularized through newspaper advertising.

Then you will realize what a debt you owe to advertising.

The advertisements mean a lot to you
Don't fail to read them

SLOPE FAIR OPENS MONDAY

Many Interesting Features
on Program for First Day

The Missouri Slope Fair will open Monday, Aug. 27, 1:30 p. m. Fair officials announce that all arrangements have been completed to make the fair finer than last year. Many new features have been added and the exhibits are numerous. Bismarck day will be Wednesday, Aug. 29.

The program for the opening day of the fair follows:
Supt. of Races—Oscar Olson.
Starter—Hon. Frank Hyland.
Judge—D. R. Taylor, J. B. Hollenbeck, Judge Casselman.
Timers—Chas. Koch, C. G. Conyne, Ed Nichols.
Supt. of Program—Dr. A. O. Henderson.
All harness races are 3 in 5 heats, and are called every fifteen minutes. First heat of the 2:30 Pace—Purse \$300.
Horses Entered—Owners.
Elroy—W. H. Lapshier, Fairmont, Minn.
Princess—W. F. McIntyre, Mapleton, N. D.

Seven-eighth mile dash 75.00
One mile dash 100.00
During the race program the people will be entertained in front of Grand Stand with the following attractions:
Madame Lucile in her wonderful act on the aerial swing.
Two of the funniest clowns, famous for their funny acts.
The Bucking Overland car—Prizes will be given to any cowboy or cowgirl who will stay with it.
Band concert during all the performances by the Mandan Municipal Band.
Evening Program
Band concert in the evening at 7 o'clock in front of the Grand Stand with other free attractions. Grand Stand will be free for all during the evening's performances.
At 8 o'clock the Theatre Duffields

Famous Fireworks. The fireworks program is larger and better than was seen last year at the fair. Don't fail to visit the Corn Show and exhibits in the building. Change of program daily. Pavement dance up town after the fireworks.

RAISERS OF CATTLE GAIN Freight Rate Ruling of I. C. C. Held Their Benefit

The Interstate Commerce Commission has decided the proceedings relative to weight and charges to be applied in connection with shipments of mixed livestock, according to information to the state railroad commission. Heretofore the railroad companies have charged the highest minimum weight in connection with the highest rate applicable to any kind of stock in the car and under the new ruling the carriers can charge the minimum weight together with the rate applicable to any particular kind of stock in the car that will develop the greatest charge, or they may use the actual weight of the shipment at the rate for the highest classified kind of stock if charges thus computed are greater than as figured on minimum weights and rates, according to V. E. Smart, traffic expert of the commission. This

will mean a distinct saving to many of the shippers in North Dakota, according to Mr. Smart. The railroad commission estimates a difference of \$20 to \$25 a car, because at the hearing before the Interstate Commerce Commission it was testified that 82 percent of all shipments at South St. Paul were mixed carloads.

SAWYER STAYS AS PHYSICIAN

Washington, Aug. 25.—A decision to retain Brigadier-General Charles E. Sawyer as physician to the President was announced today at the White House.

RUMOR PRICES TO BE RAISED

Aberdeen, S. D., Aug. 25.—In spite of rumors that persist in local circles that Standard Oil gasoline prices will be raised to 20 cents a gallon next Monday no such intimation that such would be the case had been received today at district offices of the company. Sixteen cents is the standard price here.

ARRIVE WITH SHOW CATTLE

H. H. Strutz of Thompson, N. D. and the sons of R. E. Strutz of Jamestown arrived at Mandan last evening with several cars of show cattle and sheep for the Missouri Slope fair.
H. H. and R. E. Strutz will conduct a sale of registered polled Shorthorn cattle at the Mandan fair beginning August 30 at 10:30 a. m. Twenty head, eight bulls and 12 heifers and cows, will be offered for sale. The cattle are all full blood and registered with the state health certificate.

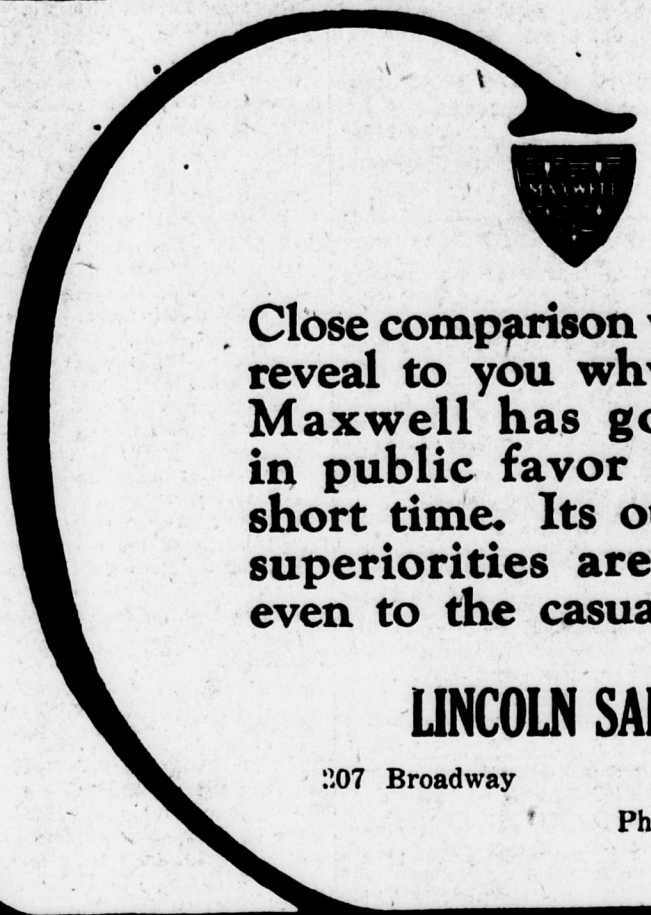

Bertsch Moves Into New Garage on Main;

The work of remodeling the old Bismarck Motor garage on Broadway into two modern store buildings commenced this week when Chris Bertsch moved his stock of Studebaker automobiles and repair department into a fine new \$18,000 garage building in the 500 block on Main street.
The new Bismarck Motor garage, home of the Studebaker car, is a large fire proof brick structure with an attractive front, a fine show room for the cars, and equipped with all the latest machinery for servicing cars. The ceiling is heavily reinforced to make possible the use of the latest machinery in lifting heavy cars that

are being worked upon. In the rear of the show room are offices where the business of the firm is transacted.
The new garage gives the Bismarck Motor company much more commodious quarters, allowing the storage of about twenty-five cars.

About \$10,000 will be spent into transforming the old garage building into two modern buildings, one forty foot front to be occupied by the Annex Cafe and the other forty-foot building to be occupied by some firm, not yet known.

The present buildings will be lengthened, the ceilings raised, the floors brought up to a level with the side walk, and attractive glass fronts put on the stores.

Close comparison will readily reveal to you why the good Maxwell has gone so far in public favor in such a short time. Its outstanding superiorities are apparent even to the casual observer.

**DODGE BROTHERS ANNOUNCE
IMPORTANT IMPROVEMENTS**

Dodge Brothers have not simply brought out a complete new line of motor cars. They have done something infinitely wiser and better than that.

They have brought new beauty, new riding ease and new mechanical perfection to the product on which their reputation as builders has been founded.

They have built a better and a more desirable line of motor cars—yet basically and fundamentally the identity of their product remains the same.

The same sturdy engine is under the hood; the same dependable chassis, improved in numberless details, underlies the body.

But the rear springs—now underslung—have been materially lengthened. The wheelbase, too, is longer, and the combined result is a notable improvement in riding qualities.

Bodies of all types have been designed to give improved appearance, and greater comfort. Lower, longer, with deeper seats and more leg room, the lines of these new cars are low-slung and graceful—the interiors are comfortable and roomy.

New head lamps and fenders, especially designed by Dodge Brothers to conform with the general lines of the car—a long straight hood and cowl effect—longer and wider running boards—unusually wide doors—combination stop signal and tail lamp—and instruments attractively grouped on raised panel—are a few of the numerous body innovations common to all types.

Combining these features with important mechanical improvements too numerous and technical to enumerate here, it is not extravagant to predict a reception for these cars unprecedented in automotive annals.

Big Price Drop

1924 WILLYS-KNIGHT and OVERLAND

Great Improvements—

These new prices and improvements announced last week have electrified the public! People tell us that nothing else compares:

| | |
|------------------------------------|----------------|
| Willys-Knight 5-Pass. Touring | - - Now \$1175 |
| Willys-Knight 2-Pass. Roadster | - - Now 1175 |
| Willys-Knight 5-Pass. Coupe-Sedan | Now 1550 |
| Willys-Knight 5-Pass. Country Club | Now 1635 |
| Willys-Knight 5-Pass. Sedan | - - - Now 1795 |
| Willys-Knight 7-Pass. Touring | - - Now 1435 |
| Willys-Knight 7-Pass. Sedan | - - - Now 1995 |

Bigger, Much More Powerful New Engine in All Overland Models

| | |
|--|-----------|
| Overland Touring with bigger new engine | Now \$525 |
| Overland Roadster with bigger new engine | Now 525 |
| Overland Coupe with bigger new engine | Now 795 |
| Overland Sedan with bigger new engine | Now 860 |
| The Big, Powerful Overland Red Bird | Now 750 |

At these low prices, both Willys-Knight and Overland models are improved, refined, better cars than ever before. Former Willys-Overland values have created the greatest sales and largest production in Willys-Overland history and made possible these even greater values which, we believe, lead the world by a wide margin.

All prices F. O. B. Toledo. We reserve the right to change prices and specifications without notice.

LAHR MOTOR SALES COMPANY

The Favorite Suburban Car

CHEVROLET

SUPERIOR 5-Passenger Sedan

\$860
f. o. b. Flint, Mich.

For the family that lives in a suburban or country home, Chevrolet 5-Passenger Sedan is the ideal, all-year car.

It has ample power to negotiate any road any automobile can travel, and through cold or storm carries the family in ease and comfort. Its price is so low that almost any family can afford it, even though another car is owned for rougher or fair weather use. It is a quality product in which the whole family can take pride, yet is easy to own, to maintain, and to operate.

Its full modern equipment includes cord tires, plate glass windows, dome and dash lights, high-grade upholstery and interior fittings.

See it before deciding on any car.

CORWIN MOTOR CO.

Look for the Havoline Bullseye

The Handy Can

Here's the kind of a can which will bring joy to your heart. Look at the shape. It will fit neatly under the seat of your car. See how smoothly the oil pours out without running down the side and making a mess.

The spout turns back out of the way and the screw cap seals the opening so that you may turn it upside down without a leak. It's a mighty clean and convenient gallon can.

To Dealers
We are the distributors of Havoline Oil in your district. We shall be glad to tell you how to become a Havoline Dealer.

And the beauty of it is that it's filled with Havoline Oil—the old reliable—the oil that has been giving motorists perfect satisfaction for twenty years. Havoline is famous for its uniformly high quality. A given grade is exactly the same no matter where or at what time of the year you buy it.

Drive up to your dealer's today and get the squat gallon can of good Havoline Oil. You'll like it.
